

## ***“Big Debates: 2017” Portfolio***

---

The unit investment trust named above (the “Portfolio”) is included in Invesco Unit Trusts, Series 1750. The Portfolio seeks to provide the potential for capital appreciation by investing in a portfolio of stocks of companies that have been selected by the Sponsor from a list of stocks published by Morgan Stanley Research in a report titled “Big Debates: 2017”. Of course, we cannot guarantee that the Portfolio will achieve its objective.

***January 30, 2017***

***You should read this prospectus and retain it for future reference.***

---

The Securities and Exchange Commission has not approved or disapproved of the Units or passed upon the adequacy or accuracy of this prospectus.

Any contrary representation is a criminal offense.

## **“Big Debates: 2017” Portfolio**

**Investment Objective.** The Portfolio seeks to provide the potential for capital appreciation.

**Principal Investment Strategy.** The Portfolio seeks to achieve its objective by investing in a portfolio of stocks. The Portfolio invests in common stocks of companies that are selected by Invesco Capital Markets, Inc., the Sponsor, from a list of stocks published by Morgan Stanley Research (“Research”) in a research report titled “Big Debates: 2017” dated January 10, 2017. Research developed this latest edition of their annually released report by asking their analysts to look at industry and company specific investor debates that are likely to drive stocks in the upcoming year. Research looked for debates that are likely to matter, that are likely to be settled (or significantly advanced) in the coming year, and for which they have a view that differs sharply from the current market consensus. The Portfolio invests in domestic and foreign stocks listed in the report that are believed to be the target of specific investor debates or are within an industry from which there are investor debates that are likely to drive stocks in the upcoming year.

You should note that the Securities were selected on the basis of the information provided in the report set forth above and that the Portfolio may continue to purchase or hold Securities, notwithstanding the fact that Research may have revised its opinion with respect to any individual Security or its industry since preparing the original report or any subsequent report. In particular, any subsequent publication of a similar type of list of stocks or an update of any above referenced report by Research will not affect the composition of the Portfolio.

Of course, we cannot guarantee that your Portfolio will achieve its objective. The value of your Units may fall below the price you paid for the Units. You should read the “Risk Factors” section before you invest.

The Portfolio is designed as part of a long-term investment strategy. The Sponsor may offer a subsequent series of the portfolio when the current Portfolio terminates. As a result, you may achieve more consistent overall results by following the

strategy through reinvestment of your proceeds over several years if subsequent series are available. Repeatedly rolling over an investment in a unit investment trust may differ from long-term investments in other investment products when considering the sales charges, fees, expenses and tax consequences attributable to a Unitholder. For more information see “Rights of Unitholders--Rollover”.

**Principal Risks.** As with all investments, you can lose money by investing in this Portfolio. The Portfolio also might not perform as well as you expect. This can happen for reasons such as these:

- **Security prices will fluctuate.** The value of your investment may fall over time.
- **An issuer may be unwilling or unable to declare dividends in the future, or may reduce the level of dividends declared.** This may result in a reduction in the value of your Units.
- **The financial condition of an issuer may worsen or its credit ratings may drop, resulting in a reduction in the value of your Units.** This may occur at any point in time, including during the initial offering period.
- **You could experience dilution of your investment if the size of the Portfolio is increased as Units are sold.** There is no assurance that your investment will maintain its proportionate share in the Portfolio’s profits and losses.
- **The Securities selected for the Portfolio may be subject to potential conflicts of interest.** The Portfolio is principally based upon research provided by Morgan Stanley Research, an affiliate of Morgan Stanley & Co. LLC. Morgan Stanley & Co. LLC has a range of relationships with certain of the companies contained in the Portfolio. The inclusion of these companies in the report supplied by Morgan Stanley Research may potentially constitute a conflict of interest. Potential

conflicts of interest are set forth in detail under “Notes to Portfolio”.

- **The Portfolio is concentrated in securities issued by companies in the consumer discretionary and consumer staples sectors.** Negative developments in these sectors will affect the value of your investment more than would be the case in a more diversified investment.
- **We do not actively manage the Portfolio.** Except in limited circumstances, the Portfolio will hold, and continue to buy, shares of the same securities even if their market value declines.

## Fee Table

The amounts below are estimates of the direct and indirect expenses that you may incur based on a \$10 Public Offering Price per Unit. Actual expenses may vary.

<b>Sales Charge</b>	<b>As a % of Public Offering Price</b>	<b>Amount Per 100 Units</b>
Initial sales charge	1.000%	\$10.000
Deferred sales charge	1.450	14.500
Creation and development fee	0.500	5.000
Maximum sales charge	<u>2.950%</u>	<u>\$29.500</u>

	<b>As a % of Net Assets</b>	<b>Amount Per 100 Units</b>
<b>Estimated Organization Costs</b>	<u>0.397%</u>	<u>\$3.841</u>
<b>Estimated Annual Expenses</b>		
Trustee's fee and operating expenses	0.140%	\$1.354
Supervisory, bookkeeping and administrative fees	<u>0.057</u>	<u>0.550</u>
Total	<u>0.197%</u>	<u>\$1.904*</u>

## Example

This example helps you compare the cost of the Portfolio with other unit trusts and mutual funds. In the example we assume that the expenses do not change and that the Portfolio's annual return is 5%. Your actual returns and expenses will vary. This example also assumes that you continue to follow the Portfolio strategy and roll your investment, including all distributions, into a new trust each year subject to a reduced rollover sales charge of 1.95%. Based on these assumptions, you would pay the following expenses for every \$10,000 you invest in the Portfolio:

1 year	\$	352
3 years		870
5 years		1,412
10 years		2,883

\* The estimated annual expenses are based upon the estimated trust size for the Portfolio determined as of the initial date of deposit. Because certain of the operating expenses are fixed amounts, if the Portfolio does not reach the estimated size, or if the value of the Portfolio or number of outstanding units decline over the life of the trust, or if the actual amount of the operating expenses exceeds the estimated amounts, the actual amount of the operating expenses per 100 units would exceed the estimated amounts. In some cases, the actual amount of operating expenses may substantially differ from the amounts reflected above.

The maximum sales charge is 2.95% of the Public Offering Price per Unit. The initial sales charge is the difference between the total sales charge (maximum of 2.95% of the Public Offering Price) and the sum of the remaining deferred sales charge and the total creation and development fee. The deferred sales charge is fixed at \$0.145 per Unit and accrues daily from June 10, 2017 through November 9, 2017. Your Portfolio pays a proportionate amount of this charge on the 10th day of each month beginning in the accrual period until paid in full. The combination of the initial and deferred sales charges comprises the "transactional sales charge". The creation and development fee is fixed at \$0.05 per Unit and is paid at the earlier of the end of the initial offering period (anticipated to be three and one-half months) or six months following the Initial Date of Deposit.

## Essential Information

<b>Unit Price at Initial Date of Deposit</b>	\$10.0000
<b>Initial Date of Deposit</b>	January 30, 2017
<b>Mandatory Termination Date</b>	May 10, 2018
<b>Estimated Net Annual Income<sup>1,2</sup></b>	\$0.08757 per Unit
<b>Record Dates<sup>2</sup></b>	10th day of each month
<b>Distribution Dates<sup>2</sup></b>	25th day of each month
<b>CUSIP Numbers</b>	Cash – 46139J584 Reinvest – 46139J592 Wrap Fee Cash – 46139J600 Wrap Fee Reinvest – 46139J618

- 1 As of close of business day prior to Initial Date of Deposit. The actual distributions you receive will vary from the estimated amount due to changes in the Portfolio's fees and expenses, in actual income received by the Portfolio, currency fluctuations and with changes in the Portfolio such as the acquisition or liquidation of securities. See "Rights of Unitholders--Estimated Distributions."
- 2 The Trustee will make distributions of income and capital on each monthly Distribution Date to Unitholders of record on the preceding Record Date, provided that the total cash held for distribution equals at least 0.1% of the Portfolio's net asset value. Undistributed income and capital will be distributed in the next month in which the total cash held for distribution equals at least 0.1% of the Portfolio's net asset value. Based on the foregoing, it is currently estimated that the initial distribution will occur in March 2017.

See “Notes to Portfolio”.

## Notes to Portfolio

- (1) The Securities are initially represented by “regular way” contracts for the performance of which an irrevocable letter of credit has been deposited with the Trustee. Contracts to acquire Securities were entered into on January 27, 2017 and have a settlement date of February 1, 2017 (see “The Portfolio”).
- (2) The value of each Security is determined on the bases set forth under “Public Offering--Unit Price” as of the close of the New York Stock Exchange on the business day before the Initial Date of Deposit. In accordance with FASB Accounting Standards Codification (“ASC”), ASC 820, Fair Value Measurements and Disclosures, the Portfolio’s investments are classified as Level 1, which refers to security prices determined using quoted prices in active markets for identical securities. Other information regarding the Securities, as of the Initial Date of Deposit, is as follows:

<b>Cost to Sponsor</b>	<b>Profit (Loss) To Sponsor</b>
\$ 148,815	\$ (122)

“+” indicates that the stock was issued by a foreign company.

- (3) Current Dividend Yield for each Security is based on the estimated annual dividends per share and the Security’s value as of the most recent close of trading on the New York Stock Exchange on the business day before the Initial Date of Deposit. Generally, estimated annual dividends per share are calculated by annualizing the most recently declared regular dividends or by adding the most recent regular interim and final dividends declared and reflect any foreign withholding taxes. In certain cases, this calculation may consider several recently declared dividends in order for the Current Dividend Yield to be more reflective of recent historical dividend rates. When determining the highest dividend-yielding securities of the Portfolio, publicly available information concerning reductions in future dividend payments to be made by an eligible stock may be taken into account.
- (4) As of December 30, 2016, Morgan Stanley & Co. LLC, or an affiliate, beneficially owned 1% or more of a class of common equity securities of this issuer.
- (5) For the 12 months ending on January 10, 2017, Morgan Stanley & Co. LLC, or an affiliate, received compensation for investment banking services from this issuer.
- (6) In the 3 months following January 10, 2017, Morgan Stanley & Co. LLC, or an affiliate, expects to receive or intends to seek compensation for investment banking services from this issuer.
- (7) For the 12 months ending on January 10, 2017, Morgan Stanley & Co. LLC, or an affiliate, has managed or co-managed a public offering (or 144a offering) of the securities of this issuer.
- (8) For the 12 months ending on January 10, 2017, Morgan Stanley & Co. LLC, or an affiliate, has provided or is providing investment banking services to, or has an investment banking client relationship with this issuer.
- (9) For the 12 months ending on January 10, 2017, Morgan Stanley & Co. LLC, or an affiliate, has received compensation for products or services other than investment banking services from this issuer.
- (10) For the 12 months ending on January 10, 2017, Morgan Stanley & Co. LLC, or an affiliate, has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with this issuer.
- (11) As of January 10, 2017, Morgan Stanley & Co. LLC, or an affiliate, has a significant financial interest in relation to this issuer.
- (12) As of January 10, 2017, Morgan Stanley & Co. LLC is considered to be a market maker in the securities of this issuer.
- (13) As of January 10, 2017, an employee, director, or consultant of Morgan Stanley is a director of this issuer. This person is not a research analyst or a member of a research analyst’s household.

## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

*To the Unitholders of Invesco Unit Trusts, Series 1750:*

We have audited the accompanying statement of condition including the related portfolio of “Big Debates: 2017” Portfolio (included in Invesco Unit Trusts, Series 1750) as of January 30, 2017. The statement of condition is the responsibility of the Sponsor. Our responsibility is to express an opinion on such statement of condition based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of condition is free of material misstatement. We were not engaged to perform an audit of the trust’s internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the trust’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of condition, assessing the accounting principles used and significant estimates made by the Sponsor, as well as evaluating the overall statement of condition presentation. Our procedures included confirmation with The Bank of New York Mellon, Trustee, of cash or an irrevocable letter of credit deposited for the purchase of Securities as shown in the statement of condition as of January 30, 2017. We believe that our audit of the statement of condition provides a reasonable basis for our opinion.

In our opinion, the statement of condition referred to above presents fairly, in all material respects, the financial position of “Big Debates: 2017” Portfolio (included in Invesco Unit Trusts, Series 1750) as of January 30, 2017, in conformity with accounting principles generally accepted in the United States of America.

GRANT THORNTON LLP

New York, New York  
January 30, 2017

**STATEMENT OF CONDITION**  
**As of January 30, 2017**

**INVESTMENT IN SECURITIES**

Contracts to purchase Securities (1) .....	\$ 148,693
Total .....	<u>\$ 148,693</u>

**LIABILITIES AND INTEREST OF UNITHOLDERS**

Liabilities--	
Organization costs (2) .....	\$ 577
Deferred sales charge liability (3) .....	2,178
Creation and development fee liability (4) .....	751
Interest of Unitholders--	
Cost to investors (5) .....	150,200
Less: initial sales charge (5)(6) .....	1,507
Less: deferred sales charge, creation and development fee and organization costs (2)(4)(5)(6) .....	3,506
Net interest to Unitholders (5) .....	<u>145,187</u>

Units outstanding .....	<u>15,020</u>
Net asset value per Unit .....	<u>\$ 9.667</u>

- 
- (1) The value of the Securities is determined by the Trustee on the bases set forth under "Public Offering--Unit Price". The contracts to purchase Securities are collateralized by an irrevocable letter of credit which has been deposited with the Trustee.
- (2) A portion of the Public Offering Price represents an amount sufficient to pay for all or a portion of the costs incurred in establishing the Portfolio. The amount of these costs are set forth in the "Fee Table". A distribution will be made as of the earlier of the close of the initial offering period (approximately three and one-half months) or six months following the Initial Date of Deposit to an account maintained by the Trustee from which the organization expense obligation of the investors will be satisfied. To the extent that actual organization costs of the Portfolio are greater than the estimated amount, only the estimated organization costs added to the Public Offering Price will be reimbursed to the Sponsor and deducted from the assets of the Portfolio.
- (3) Represents the amount of mandatory distributions from the Portfolio on the bases set forth under "Public Offering".
- (4) The creation and development fee is payable by the Portfolio on behalf of Unitholders out of the assets of the Portfolio as of the close of the initial offering period. If Units are redeemed prior to the close of the initial public offering period, the fee will not be deducted from the proceeds.
- (5) The aggregate public offering price and the aggregate sales charge are computed on the bases set forth under "Public Offering".
- (6) Assumes the maximum sales charge.

## THE PORTFOLIO

---

The Portfolio was created under the laws of the State of New York pursuant to a Trust Indenture and Trust Agreement (the “Trust Agreement”), dated the date of this prospectus (the “Initial Date of Deposit”), among Invesco Capital Markets, Inc., as Sponsor, Invesco Investment Advisers LLC, as Supervisor, and The Bank of New York Mellon, as Trustee.

The Portfolio offers investors the opportunity to purchase Units representing proportionate interests in a portfolio of equity securities. The Portfolio may be an appropriate medium for investors who desire to participate in a portfolio of stocks with greater diversification than they might be able to acquire individually.

On the Initial Date of Deposit, the Sponsor deposited delivery statements relating to contracts for the purchase of the Securities and an irrevocable letter of credit in the amount required for these purchases with the Trustee. In exchange for these contracts the Trustee delivered to the Sponsor documentation evidencing the ownership of Units of the Portfolio. Unless otherwise terminated as provided in the Trust Agreement, the Portfolio will terminate on the Mandatory Termination Date and any remaining Securities will be liquidated or distributed by the Trustee within a reasonable time. As used in this prospectus the term “Securities” means the securities (including contracts to purchase these securities) listed in the “Portfolio” and any additional securities deposited into the Portfolio.

Additional Units of the Portfolio may be issued at any time by depositing in the Portfolio (i) additional Securities, (ii) contracts to purchase Securities together with cash or irrevocable letters of credit or (iii) cash (or a letter of credit or the equivalent) with instructions to purchase additional Securities. As additional Units are issued by the Portfolio, the aggregate value of the Securities will be increased and the fractional undivided interest represented by each Unit may be decreased. The Sponsor may continue to make additional deposits into the Portfolio following the Initial Date of Deposit provided that the additional deposits will be in amounts which will maintain, as nearly as practicable, the same percentage relationship among the number of shares of each Security in the Portfolio

that existed immediately prior to the subsequent deposit. Investors may experience a dilution of their investments and a reduction in their anticipated income because of fluctuations in the prices of the Securities between the time of the deposit and the purchase of the Securities and because the Portfolio will pay the associated brokerage or acquisition fees. In addition, during the initial offering of Units it may not be possible to buy a particular Security due to regulatory or trading restrictions or corporate actions. While such limitations are in effect, additional Units would be created by purchasing each of the Securities in your Portfolio that are not subject to those limitations. This would also result in the dilution of the investment in any such Security not purchased and potential variances in anticipated income. Purchases and sales of Securities by your Portfolio may impact the value of the Securities. This may especially be the case during the initial offering of Units, upon Portfolio termination and in the course of satisfying large Unit redemptions.

Each Unit of your Portfolio initially offered represents an undivided interest in the Portfolio. At the close of the New York Stock Exchange on the Initial Date of Deposit, the number of Units may be adjusted so that the Public Offering Price per Unit equals \$10. The number of Units, fractional interest of each Unit in your Portfolio and the estimated distributions per Unit will increase or decrease to the extent of any adjustment. To the extent that any Units are redeemed to the Trustee or additional Units are issued as a result of additional Securities being deposited by the Sponsor, the fractional undivided interest in your Portfolio represented by each unredeemed Unit will increase or decrease accordingly, although the actual interest in your Portfolio will remain unchanged. Units will remain outstanding until redeemed upon tender to the Trustee by Unitholders, which may include the Sponsor, or until the termination of the Trust Agreement.

The Portfolio consists of (a) the Securities (including contracts for the purchase thereof) listed under “Portfolio” as may continue to be held from time to time in the Portfolio, (b) any additional Securities acquired and held by the Portfolio pursuant to the provisions of the Trust Agreement and (c) any cash held in the related Income and Capital Accounts. Neither the Sponsor nor

the Trustee shall be liable in any way for any contract failure in any of the Securities.

## **OBJECTIVE AND SECURITIES SELECTION**

---

The objective of the Portfolio is described on page 2. There is no assurance that the Portfolio will achieve its objective.

While the Portfolio was based in part on research published by Morgan Stanley Research, the Securities in the Portfolio were selected by the Sponsor. Morgan Stanley & Co. LLC (“MS&Co”), Morgan Stanley Smith Barney LLC (“MSSB”) and their affiliates may use the list of Securities included in the Portfolio and distribute this information to various individuals and entities. MS&Co, MSSB and their affiliates may recommend to other clients or otherwise effect transactions in the Securities held by the Portfolio. This may have an adverse effect on the prices of the Securities. This also may have an impact on the price the Portfolio pays for the Securities and the price received upon unit redemptions or liquidation of the Securities. MS&Co, MSSB and their affiliates also issue reports and make recommendations on securities, which may include the Securities in the Portfolio. In addition, MS&Co and MSSB in their general securities businesses act as agent or principal in connection with buying and selling securities, including the Securities held by the Portfolio, and may have bought the Securities held in the Portfolio, thereby benefiting. See under “Notes to Portfolio” in this prospectus for specific information concerning MS&Co’s and MSSB’s investment banking relationships and roles as market-makers for certain of the Securities included in the Portfolio. In the future, MS&Co and MSSB may seek to provide investment banking or other services to any of the issuers of the Securities in the Portfolio. Other than providing research, MS&Co and MSSB are not liable for any information contained in the prospectus which they did not provide. The Portfolio is not sponsored or endorsed by MS&Co and MS&Co makes no representation or warranty, express or implied, to the unitholders of the Portfolio or any member of the public regarding the advisability of investing in units of the Portfolio. MS&Co has no obligation or liability in connection with the investment

decisions made by the Sponsor or the Portfolio or in connection with the administration of the Portfolio.

The Sponsor does not manage the Portfolio. You should note that the selection criteria were applied to the Securities for inclusion in the Portfolio as of the selection time. After this time, the Securities may no longer meet the selection criteria. Should a Security no longer meet the selection criteria, we will generally not remove the Security from the Portfolio. In offering the Units to the public, neither the Sponsor nor any broker-dealers are recommending any of the individual Securities but rather the entire pool of Securities in the Portfolio, taken as a whole, which are represented by the Units.

## **RISK FACTORS**

---

All investments involve risk. This section describes the main risks that can impact the value of the securities in your Portfolio. You should understand these risks before you invest. If the value of the securities falls, the value of your Units will also fall. We cannot guarantee that your Portfolio will achieve its objective or that your investment return will be positive over any period.

**Market Risk.** Market risk is the risk that the value of the securities in your Portfolio will fluctuate. This could cause the value of your Units to fall below your original purchase price. Market value fluctuates in response to various factors. These can include changes in interest rates, inflation, the financial condition of a security’s issuer, perceptions of the issuer, or ratings on a security of the issuer. Even though your Portfolio is supervised, you should remember that we do not manage your Portfolio. Your Portfolio will not sell a security solely because the market value falls as is possible in a managed fund.

**Dividend Payment Risk.** Dividend payment risk is the risk that an issuer of a security is unwilling or unable to pay dividends on a security. Stocks represent ownership interests in the issuers and are not obligations of the issuers. Common stockholders have a right to receive dividends only after the company has provided for payment of its creditors, bondholders and preferred stockholders. Common stocks do not assure dividend payments. Dividends are paid only when declared by an

issuer's board of directors and the amount of any dividend may vary over time. If dividends received by the Portfolio are insufficient to cover expenses, redemptions or other Portfolio costs, it may be necessary for the Portfolio to sell Securities to cover such expenses, redemptions or other costs. Any such sales may result in capital gains or losses to you. See "Taxation".

**Industry Risks.** Your Portfolio may invest significantly in certain industries. Any negative impact on the related industry will have a greater impact on the value of Units than on a portfolio diversified over several industries. You should understand the risks of these industries before you invest.

*Consumer Discretionary and Consumer Staples Issuers.* Your Portfolio invests significantly in companies that manufacture or sell various consumer products. General risks of these companies include the overall state of the economy, intense competition and consumer spending trends. A decline in the economy which results in a reduction of consumers' disposable income can negatively impact spending habits. Global factors including political developments, imposition of import controls, fluctuations in oil prices, and changes in exchange rates may adversely affect issuers of consumer products and services. Competitiveness in the retail industry may require large capital outlays for the installation of automated checkout equipment to control inventory, track the sale of items and gauge the success of sales campaigns. Retailers who sell their products over the Internet have the potential to access more consumers, but may require sophisticated technology to remain competitive. Changes in demographics and consumer tastes can also affect the demand for, and the success of, consumer products and services in the marketplace. Consumer products and services companies may be subject to government regulation affecting their products and operations which may negatively impact performance. Tobacco companies may be adversely affected by new laws, regulations and litigation.

*Financial Services Issuers.* The Portfolio invests significantly in financial services companies. Companies in the financial services industry include, but are not limited to, companies involved in activities such as banking,

mortgage finance, consumer finance, specialized finance, industrial finance and leasing, investment banking and brokerage, asset management and custody, corporate lending, insurance, and financial investment and real estate, including real estate investment trusts. In general, financial services issuers are substantially affected by changes in economic and market conditions, including: the liquidity and volatility levels in the global financial markets; interest rates, as well as currency and commodities prices; investor sentiment; the rate of corporate and consumer defaults; inflation and unemployment; the availability and cost of capital and credit; exposure to various geographic markets or in commercial and residential real estate; competition from new entrants in their fields of business; extensive government regulation; and the overall health of the U.S. and international economies.

The financial services sector was adversely affected by global developments stemming from the financial crisis including recessionary conditions, deterioration in the credit markets and recurring concerns over sovereign debt. A substantial amount of assets were written down by financial institutions, with the impact of these losses forcing a number of large traditional banks, investment banks, broker-dealers and insurers into liquidation, combination or other restructuring. This also significantly increased the credit risk, and possibility of default, of bonds issued by such institutions faced with these problems. In addition, the liquidity of certain debt instruments has been reduced or eliminated due to the lack of available market makers. While the U.S. and foreign governments, and their respective government agencies, have taken steps to address problems in the financial markets and with financial institutions, there can be no assurance that the risks associated with investment in financial services issuers will decrease as a result of these steps.

Most financial services companies are subject to extensive governmental regulation, which limits their activities and may affect their ability to earn a profit from a given line of business. Challenging economic and political conditions, along with increased public scrutiny during the past several years, have led to new legislation and increased regulation in the U.S. and abroad, creating

additional difficulties for financial institutions. Regulatory initiatives and requirements that are being proposed around the world may be inconsistent or may conflict with regulations to which financial services issuers are currently subject, thereby resulting in higher compliance and legal costs, as well as the potential for higher operational, capital and liquidity costs. Proposed or enacted regulations may further limit the amounts and types of loans and other financial commitments certain financial services issuers can make, and further, may limit the interest rates and fees they can charge, the prices they can charge and the amount of capital they must maintain. These laws and regulations may affect the manner in which a particular financial institution does business and the products and services it may provide. Increased regulation may restrict a company's ability to compete in its current businesses or to enter into or acquire new businesses. New regulations may reduce or limit a company's revenue or impose additional fees, limit the scope of their activities, increase assessments or taxes on those companies and intensify regulatory supervision, adversely affecting business operations or leading to other negative consequences.

Among the most prominent pieces of legislation following the financial crisis has been the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), enacted into federal law on July 21, 2010. The Dodd-Frank Act includes reforms and refinements to modernize existing laws to address emerging risks and issues in the nation's evolving financial system. It also establishes entirely new regulatory regimes, including in areas such as systemic risk regulation, over-the-counter derivatives market oversight, and federal consumer protection. The Dodd-Frank Act is intended to cover virtually all participants in the financial services industry for years to come, including banks, thrifts, depository institution holding companies, mortgage lenders, insurance companies, industrial loan companies, broker-dealers and other securities and investment advisory firms, private equity and hedge funds, consumers, numerous federal agencies and the federal regulatory structure. In particular, certain provisions of the Dodd-Frank Act increase the capital requirements of certain financial services companies supervised by the Federal

Reserve, resulting in such companies incurring generally higher deposit premiums. These types of regulatory changes may have adverse effects on certain issuers in your Portfolio, and could lead to decreases in such issuers' profits or revenues. In many cases the full impact of the Dodd-Frank Act on a financial institution's business remains uncertain because of the extensive rule-making still to be completed. The Sponsor is unable to predict the ultimate impact of the Dodd-Frank Act, and any resulting regulation, on the securities in your Portfolio or on the financial services industry in general.

Financial services companies in foreign countries are also subject to regulatory and interest rate concerns. In particular, government regulation in certain foreign countries may include controls on interest rates, credit availability, prices and currency transfers. Negative developments regarding Eurozone sovereign debt, including the potential for further downgrades of sovereign credit ratings, as well as downgrades to the ratings of the U.S. government's sovereign credit rating, could adversely affect financial services issuers. In addition, the departure of any Eurozone country from use of the Euro could lead to serious disruptions to foreign exchanges, operations and settlements, which may have an adverse effect on financial services issuers.

The financial condition of customers, clients and counterparties, including other financial institutions, could adversely affect financial services issuers. Financial services issuers are interrelated as a result of market making, trading, clearing or other counterparty relationships. Many of these transactions expose financial services issuers to credit risk as a result of the actions of, or deterioration in, the commercial soundness of other counterparty financial institutions. Economic and market conditions may increase credit exposures due to the increased risk of customer, client or counterparty default. Downgrades to the credit ratings of financial services issuers could have a negative effect on liquidity, cash flows, competitive position, financial condition and results of operations by significantly limiting access to funding or capital markets, increasing borrowing costs or triggering increased collateral requirements. Financial services issuers face significant legal risk, both from regulatory investigations and proceedings, as well as private actions.

Profit margins of these companies continue to shrink due to the commoditization of traditional businesses, new competitors, capital expenditures on new technology and the pressure to compete globally.

Banks face competition from nontraditional lending sources as regulatory changes have permitted new entrants to offer various financial products. Technological advances allow these nontraditional lending sources to cut overhead and permit the more efficient use of customer data. Banks continue to face tremendous pressure from mutual funds, brokerage firms and other financial service providers in the competition to furnish services that were traditionally offered by banks. Bank profitability is largely dependent on the availability and cost of capital funds, and may fluctuate significantly when interest rates change or due to increased competition. Further, economic conditions in the real estate market may have a particularly strong effect on certain banks and savings associations. Declining real estate values could adversely affect financial institutions engaged in mortgage finance or other lending or investing activities directly or indirectly connected to the value of real estate.

Companies engaged in investment management and broker-dealer activities are subject to volatility in their earnings and share prices that often exceed the volatility of the equity market in general. Adverse changes in the direction of the stock market, investor confidence, equity transaction volume, the level and direction of interest rates and the outlook of emerging markets could adversely affect the financial stability, as well as the stock prices, of these companies.

Companies involved in the insurance, reinsurance and risk management industry underwrite, sell or distribute property, casualty and business insurance. Many factors affect insurance, reinsurance and risk management company profits, including interest rate movements, the imposition of premium rate caps, a misapprehension of the risks involved in given underwritings, competition and pressure to compete globally, terrorism, weather catastrophes or other disasters and the effects of client mergers. Individual companies may be exposed to risks including reserve inadequacy and the inability to collect from reinsurance carriers. Life and health insurance companies may be affected by mortality and morbidity

rates, including the effect of epidemics. Insurance companies are subject to extensive governmental regulation, including the imposition of maximum rate levels, which may not be adequate for some lines of business. Insurance companies may be subject to severe price competition. Proposed or potential tax law changes may also adversely affect insurance companies' policy sales, tax obligations and profitability.

*Materials Issuers.* Your Portfolio invests significantly in companies in the materials sector. Companies in the materials sector could be adversely affected by commodity price volatility, exchange rates, import controls and increased competition. Production of materials often exceeds demand as a result of overbuilding or economic downturns, leading to poor investment returns. Companies in the materials sector are at risk for environmental damage and product liability claims. Companies in the materials sector may be adversely affected by depletion of resources, technical progress, labor relations, and governmental regulations.

*Information Technology Issuers.* The Portfolio invests significantly in information technology companies. These companies include companies that are involved in computer and business services, enterprise software/technical software, Internet and computer software, Internet-related services, networking and telecommunications equipment, telecommunications services, electronics products, server hardware, computer hardware and peripherals, semiconductor capital equipment and semiconductors. These companies face risks related to rapidly changing technology, rapid product obsolescence, cyclical market patterns, evolving industry standards and frequent new product introductions.

Companies in this sector face risks from rapid changes in technology, competition, dependence on certain suppliers and supplies, rapid obsolescence of products or services, patent termination, frequent new products and government regulation. These companies can also be adversely affected by interruption or reduction in supply of components or loss of key customers and failure to comply with certain industry standards.

An unexpected change in technology can have a significant negative impact on a company. The failure of a company to introduce new products or technologies or keep pace with rapidly changing technology can have a negative impact on the company's results. Information technology companies may also be smaller and/or less experienced companies with limited product lines, markets or resources. Stocks of some Internet companies have high price-to-earnings ratios with little or no earnings histories. Information technology stocks tend to experience substantial price volatility and speculative trading. Announcements about new products, technologies, operating results or marketing alliances can cause stock prices to fluctuate dramatically. At times, however, extreme price and volume fluctuations are unrelated to the operating performance of a company. This can impact your ability to redeem your Units at a price equal to or greater than what you paid.

**Potential Conflicts of Interest.** The Securities selected for the Portfolio may be subject to potential conflicts of interest. The Portfolio is principally based upon research provided by Morgan Stanley Research, an affiliate of MS&Co. MS&Co has a range of relationships with certain of the companies contained in the Portfolio. The inclusion of these companies in the report supplied by Morgan Stanley Research may potentially constitute a conflict of interest. Potential conflicts of interest are set forth in detail under "Notes to Portfolio".

**Legislation/Litigation.** From time to time, various legislative initiatives are proposed in the United States and abroad which may have a negative impact on certain of the companies represented in your Portfolio or on the tax treatment of your Portfolio or of your investment in the Portfolio. In addition, litigation regarding any of the issuers of the Securities or of the industries represented by these issuers may negatively impact the share prices of these Securities. No one can predict what impact any pending or threatened litigation will have on the share prices of the Securities.

**Liquidity Risk.** Liquidity risk is the risk that the value of a security will fall if trading in the security is limited or absent. The market for certain investments may become less liquid or illiquid due to adverse changes in the conditions of a particular issuer or due to adverse market

or economic conditions. In the absence of a liquid trading market for a particular security, the price at which such security may be sold to meet redemptions, as well as the value of the Units of your Portfolio, may be adversely affected. No one can guarantee that a liquid trading market will exist for any security.

**No FDIC Guarantee.** An investment in your Portfolio is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

## **PUBLIC OFFERING**

---

**General.** Units are offered at the Public Offering Price which consists of the net asset value per Unit plus organization costs plus the sales charge. The net asset value per Unit is the value of the securities, cash and other assets in your Portfolio reduced by the liabilities of the Portfolio divided by the total Units outstanding. The maximum sales charge equals 2.95% of the Public Offering Price per Unit (3.04% of the aggregate offering price of the Securities) at the time of purchase.

You pay the initial sales charge at the time you buy Units. The initial sales charge is the difference between the total sales charge percentage (maximum of 2.95% of the Public Offering Price per Unit) and the sum of the remaining fixed dollar deferred sales charge and the total fixed dollar creation and development fee. The initial sales charge will be approximately 1.00% of the Public Offering Price per Unit depending on the Public Offering Price per Unit. The deferred sales charge is fixed at \$0.145 per Unit. Your Portfolio pays the deferred sales charge in installments as described in the "Fee Table." If any deferred sales charge payment date is not a business day, we will charge the payment on the next business day. If you purchase Units after the initial deferred sales charge payment, you will only pay that portion of the payments not yet collected. If you redeem or sell your Units prior to collection of the total deferred sales charge, you will pay any remaining deferred sales charge upon redemption or sale of your Units. The initial and deferred sales charges are referred to as the "transactional sales charge." The transactional sales charge does not include the creation and development fee which compensates the Sponsor for

creating and developing your Portfolio and is described under “Expenses.” The creation and development fee is fixed at \$0.05 per Unit. Your Portfolio pays the creation and development fee as of the close of the initial offering period as described in the “Fee Table.” If you redeem or sell your Units prior to collection of the creation and development fee, you will not pay the creation and development fee upon redemption or sale of your Units. Because the deferred sales charge and creation and development fee are fixed dollar amounts per Unit, the actual charges will exceed the percentages shown in the “Fee Table” if the Public Offering Price per Unit falls below \$10 and will be less than the percentages shown in the “Fee Table” if the Public Offering Price per Unit exceeds \$10. In no event will the maximum total sales charge exceed 2.95% of the Public Offering Price per Unit.

Since the deferred sales charge and creation and development fee are fixed dollar amounts per Unit, your Portfolio must charge these amounts per Unit regardless of any decrease in net asset value. However, if the Public Offering Price per Unit falls to the extent that the maximum sales charge percentage results in a dollar amount that is less than the combined fixed dollar amounts of the deferred sales charge and creation and development fee, your initial sales charge will be a credit equal to the amount by which these fixed dollar charges exceed your sales charge at the time you buy Units. In such a situation, the value of securities per Unit would exceed the Public Offering Price per Unit by the amount of the initial sales charge credit and the value of those securities will fluctuate, which could result in a benefit or detriment to Unitholders that purchase Units at that price. The initial sales charge credit is paid by the Sponsor and is not paid by the Portfolio. The “Fee Table” shows the sales charge calculation at a \$10 Public Offering Price per Unit and the following examples illustrate the sales charge at prices below and above \$10. If the Public Offering Price per Unit fell to \$6, the maximum sales charge would be \$0.1770 (2.95% of the Public Offering Price per Unit), which consists of an initial sales charge of -\$0.0180, a deferred sales charge of \$0.145 and a creation and development fee of \$0.05. If the Public

Offering Price per Unit rose to \$14, the maximum sales charge would be \$0.4130 (2.95% of the Public Offering Price per Unit), consisting of an initial sales charge of \$0.2180, a deferred sales charge of \$0.145 and the creation and development fee of \$0.05.

The actual sales charge that may be paid by an investor may differ slightly from the sales charges shown herein due to rounding that occurs in the calculation of the Public Offering Price and in the number of Units purchased.

The minimum purchase is 100 Units (25 Units for retirement accounts) but may vary by selling firm. Certain broker-dealers or selling firms may charge an order handling fee for processing Unit purchases.

***Reducing Your Sales Charge.*** The Sponsor offers a variety of ways for you to reduce the sales charge that you pay. It is your financial professional’s responsibility to alert the Sponsor of any discount when you purchase Units. Before you purchase Units you must also inform your financial professional of your qualification for any discount or of any combined purchases to be eligible for a reduced sales charge. As further described in this section, purchases executed on the same day by a single person at the same broker-dealer may be combined for sales charge discount calculation purposes. Secondary market purchases are excluded for purposes of sales charge discount calculations. Since the deferred sales charges and creation and development fee are fixed dollar amounts per Unit, your Portfolio must charge these amounts per Unit regardless of any discounts. However, if you are eligible to receive a discount such that your total sales charge is less than the fixed dollar amounts of the deferred sales charges and creation and development fee, you will receive a credit equal to the difference between your total sales charge and these fixed dollar charges at the time you buy Units.

***Large Quantity Purchases.*** You can reduce your sales charge by increasing the size of your investment. Based upon the aggregate dollar amount of Units purchased by a Unitholder in the initial offering period, the following table shows both the corresponding sales charge and the concession or agency commission allowed to broker-dealers and other selling agents on such transaction.

<b>Transaction Amount</b>	<b>Sales Charge</b>	<b>Broker-Dealer Concession or Agency Commission</b>
Less than \$50,000 . . . . .	2.95%	2.25%
\$50,000 - \$99,999 . . . . .	2.70	2.00
\$100,000 - \$249,999 . . . . .	2.45	1.75
\$250,000 - \$499,999 . . . . .	2.20	1.50
\$500,000 - \$999,999 . . . . .	1.95	1.25
\$1,000,000 or more . . . . .	1.40	0.75

Except as described below, these quantity discount levels apply only to purchases of a single Portfolio made by the same person on a single day from a single broker-dealer. We apply these sales charges as a percent of the Public Offering Price per Unit at the time of purchase. The breakpoints will be adjusted to take into consideration purchase orders stated in dollars which cannot be completely fulfilled due to the requirement that only whole Units will be issued. Additional information regarding the broker-dealer concession or agency commission is presented in the “Unit Distribution” section.

For purposes of achieving these levels, you may combine certain purchases made on the same day through a single broker-dealer or selling agent, as further described below. You must inform your broker-dealer of any combined purchases before your purchase to be eligible for a reduced sales charge. For purposes of achieving the quantity discount levels in the above table, Units of the Portfolio may be combined with (i) purchases of units of any other Invesco-sponsored unit investment trusts during each trust’s initial offering period, (ii) purchases of units made as described under the “Fee Accounts” paragraph in this section, and (iii) purchases of units eligible for the sales charge discounts described under the “Rollovers and Exchanges” paragraph in this section. In addition, Units purchased in the name of your spouse (or the equivalent if recognized under local law) or children (including step-children) under 21 living in the same household as you will be deemed to be additional purchases by you for the purposes of calculating the applicable quantity discount level. The reduced sales charge levels will also be applicable to a trustee or other

fiduciary purchasing Units for a single trust, estate (including multiple trusts created under a single estate) or fiduciary account.

*Fee Accounts.* Investors may purchase Units through registered investment advisers, certified financial planners and registered broker-dealers who in each case either charge periodic fees for brokerage services, financial planning, investment advisory or asset management services, or provide such services in connection with the establishment of an investment account for which a comprehensive “wrap fee” charge (“Wrap Fee”) is imposed (“Fee Accounts”). If Units of the Portfolio are purchased for a Fee Account and the Portfolio is subject to a Wrap Fee (*i.e.*, the Portfolio is “Wrap Fee Eligible”), then the purchase will not be subject to the transactional sales charge but will be subject to the creation and development fee of \$0.05 per Unit that is retained by the Sponsor. Please refer to the section called “Fee Accounts” for additional information on these purchases. The Sponsor reserves the right to limit or deny purchases of Units described in this paragraph by investors or selling firms whose frequent trading activity is determined to be detrimental to the Portfolio. As described above in “Large Quantity Purchases”, Units purchased for a Fee Account may be combined with certain other purchases for purposes of achieving the quantity discount levels presented in the table above under “Large Quantity Purchases”, however, such Wrap Fee Eligible Units are not eligible for any sales charge discounts in addition to that which is described in this paragraph and under the “Fee Accounts” section found below.

*Rollovers and Exchanges.* During the initial offering period of the Portfolio, unitholders of any Invesco-sponsored unit investment trust and unitholders of unaffiliated unit investment trusts may utilize their redemption proceeds (towards an exchange) or termination proceeds (towards a rollover) from such trusts to purchase Units of the Portfolio, or units of any other Invesco-sponsored unit investment trust in its initial offering period, at a reduced sales charge. For such aggregated purchases of less than \$1,000,000, Units may be purchased at the Public Offering Price per Unit

less 1.00%. For such aggregated purchases of \$1,000,000 or more, either made solely with redemption or termination proceeds from other unit investment trusts or in combination with other purchases as described above under “Large Quantity Purchases”, Units will be eligible for the applicable quantity discount level presented in the table that appears in that subsection. For aggregated purchases described above in the “Large Quantity Purchases” subsection that consist of any units other than Units of the Portfolio, please refer to the prospectus of the applicable Invesco-sponsored unit investment trust for information regarding the specified sales charge reductions on those units. In order to be eligible for the sales charge discounts applicable to Unit purchases made with redemption or termination proceeds from other unit investment trusts, the trade date of each rollover or redemption, or each other trust’s termination date resulting in the receipt of such proceeds used to purchase Units of the Portfolio must all be derived from transactions that occurred within 30 calendar days prior to your Unit purchase. In addition, the discounts will only be available for investors that utilize the same broker-dealer (or a different broker-dealer with appropriate notification) for both the Unit purchase and the transaction resulting in the receipt of the termination or redemption proceeds used for the Unit purchase. You may be required to provide appropriate documentation or other information to your broker-dealer to evidence your eligibility for these reduced sales charge discounts. A rollover or exchange does not avoid a taxable event on the redemption or termination of an interest in a trust.

*Employees.* Employees, officers and directors (including their spouses (or the equivalent if recognized under local law) and children or step-children under 21 living in the same household, parents or step-parents and trustees, custodians or fiduciaries for the benefit of such persons) of Invesco Capital Markets, Inc. and its affiliates, and dealers and their affiliates may purchase Units at the Public Offering Price less the applicable dealer concession. All employee discounts are subject to the policies of the related selling firm. Only employees, officers and directors of companies that allow their employees to participate in this employee discount program are eligible for the discounts.

*Distribution Reinvestments.* We do not charge any sales charge when you reinvest distributions from your Portfolio into additional Units of your Portfolio. Since the deferred sales charge and creation and development fee are fixed dollar amounts per unit, your Portfolio must charge these amounts per unit regardless of this discount. If you elect to reinvest distributions, the Sponsor will credit you with additional Units with a dollar value sufficient to cover the amount of any remaining deferred sales charge and creation and development fee that will be collected on such Units at the time of reinvestment. The dollar value of these Units will fluctuate over time.

**Unit Price.** The Public Offering Price of Units will vary from the amounts stated under “Essential Information” in accordance with fluctuations in the prices of the underlying Securities in your Portfolio. The initial price of the Securities upon deposit by the Sponsor was determined by the Trustee. The Trustee will generally determine the value of the Securities as of the Evaluation Time on each business day and will adjust the Public Offering Price of Units accordingly. The Evaluation Time is the close of the New York Stock Exchange on each business day. The term “business day”, as used herein and under “Rights of Unitholders--Redemption of Units”, means any day on which the New York Stock Exchange is open for regular trading. The Public Offering Price per Unit will be effective for all orders received prior to the Evaluation Time on each business day. Orders received by the Sponsor prior to the Evaluation Time and orders received by authorized financial professionals prior to the Evaluation Time that are properly transmitted to the Sponsor by the time designated by the Sponsor, are priced based on the date of receipt. Orders received by the Sponsor after the Evaluation Time, and orders received by authorized financial professionals after the Evaluation Time or orders received by such persons that are not transmitted to the Sponsor until after the time designated by the Sponsor, are priced based on the date of the next determined Public Offering Price per Unit provided they are received timely by the Sponsor on such date. It is the responsibility of authorized financial professionals to transmit orders received by them to the Sponsor so they will be received in a timely manner.

The value of portfolio securities is based on the securities' market price when available. When a market price is not readily available, including circumstances under which the Trustee determines that a security's market price is not accurate, a portfolio security is valued at its fair value, as determined under procedures established by the Trustee or an independent pricing service used by the Trustee. In these cases, the Portfolio's net asset value will reflect certain portfolio securities' fair value rather than their market price. With respect to securities that are primarily listed on foreign exchanges, the value of the portfolio securities may change on days when you will not be able to purchase or sell Units. The value of any foreign securities is based on the applicable currency exchange rate as of the Evaluation Time. The Sponsor will provide price dissemination and oversight services to the Portfolio.

During the initial offering period, part of the Public Offering Price represents an amount that will pay the costs incurred in establishing your Portfolio. These costs include the costs of preparing documents relating to the Portfolio (such as the registration statement, prospectus, trust agreement and legal documents), federal and state registration fees, the initial fees and expenses of the Trustee and the initial audit. Your Portfolio will sell securities to reimburse us for these costs at the end of the initial offering period or after six months, if earlier. The value of your Units will decline when the Portfolio pays these costs.

**Unit Distribution.** Units will be distributed to the public by the Sponsor, broker-dealers and others at the Public Offering Price. Units repurchased in the secondary market, if any, may be offered by this prospectus at the secondary market Public Offering Price in the manner described above.

**Unit Sales Concessions.** Brokers, dealers and others will be allowed a regular concession or agency commission in connection with the distribution of Units during the initial offering period as set forth in the "Broker-Dealer Concession or Agency Commission" column of the table under "Reducing Your Sales Charge – Large Quantity Purchases". For transactions involving unitholders of other unit investment trusts who use their redemption or termination proceeds to purchase Units of

the Portfolio, the regular concession or agency commission will amount to 1.30% per Unit (0.75% per Unit for aggregated purchases of \$1,000,000 or more).

In addition to any regular or volume concession described in the prospectus, Morgan Stanley Smith Barney LLC will receive a reallowance of 0.05% of the Public Offering Price per Unit on all Units of the Portfolio sold by them during the initial offering period.

**Volume Concession Based Upon Annual Sales.** As described below, broker-dealers and other selling agents may in certain cases be eligible for an additional concession based upon their annual eligible sales of all Invesco fixed income and equity unit investment trusts. Eligible sales include all units of any Invesco unit investment trust underwritten or purchased directly from Invesco during a trust's initial offering period. For purposes of this concession, trusts designated as either "Invesco Unit Trusts, Taxable Income Series" or "Invesco Unit Trusts, Municipal Series" are fixed income trusts, and trusts designated as "Invesco Unit Trusts Series" are equity trusts. In addition to the regular concessions or agency commissions described above in "Unit Sales Concessions", all broker-dealers and other selling firms will be eligible to receive additional compensation based on total initial offering period sales of all eligible Invesco unit investment trusts during the previous consecutive 12-month period through the end of the most recent month. The Volume Concession, as applicable to equity and fixed income trust units, is set forth in the following table:

Total Sales (in millions)	Volume Concession	
	Equity Trust Units	Fixed Income Trust Units
\$25 but less than \$100	0.050%	0.050%
\$100 but less than \$150	0.075	0.075
\$150 but less than \$250	0.100	0.100
\$250 but less than \$500	0.115	0.100
\$500 but less than \$750	0.125	0.100
\$750 but less than \$1,000	0.130	0.100
\$1,000 but less than \$1,500	0.135	0.100
\$1,500 but less than \$2,000	0.140	0.100
\$2,000 but less than \$3,000	0.150	0.100
\$3,000 but less than \$4,000	0.160	0.100
\$4,000 but less than \$5,000	0.170	0.100
\$5,000 or more	0.175	0.100

Broker-dealers and other selling firms will not receive the Volume Concession on the sale of units purchased in Fee Accounts, however, such sales will be included in determining whether a firm has met the sales level breakpoints set forth in the Volume Concession table above. Secondary market sales of all unit investment trusts are excluded for purposes of the Volume Concession. Eligible dealer firms and other selling agents include clearing firms that place orders with Invesco and provide Invesco with information with respect to the representatives who initiated such transactions. Eligible dealer firms and other selling agents will not include firms that solely provide clearing services to other broker-dealer firms or firms who place orders through clearing firms that are eligible dealers. We reserve the right to change the amount of the concessions or agency commissions from time to time. For a trust to be eligible for this additional compensation, the trust's prospectus must include disclosure related to this additional compensation.

*Additional Information.* Except as provided in this section, any sales charge discount provided to investors will be borne by the selling broker-dealer or agent. For all secondary market transactions the total concession or agency commission will amount to 80% of the sales charge. Notwithstanding anything to the contrary herein, in no case shall the total of any concessions, agency commissions and any additional compensation allowed or paid to any broker, dealer or other distributor of Units with respect to any individual transaction exceed the total sales charge applicable to such transaction. The Sponsor reserves the right to reject, in whole or in part, any order for the purchase of Units and to change the amount of the concession or agency commission to dealers and others from time to time.

We may provide, at our own expense and out of our own profits, additional compensation and benefits to broker-dealers who sell Units of the Portfolio and our other products. This compensation is intended to result in additional sales of our products and/or compensate broker-dealers and financial advisors for past sales. We may make these payments for marketing, promotional or related expenses, including, but not limited to, expenses of entertaining retail customers and financial advisors, advertising, sponsorship of events or seminars,

obtaining shelf space in broker-dealer firms and similar activities designed to promote the sale of the Portfolio and our other products. Fees may include payment for travel expenses, including lodging, incurred in connection with trips taken by invited registered representatives for meetings or seminars of a business nature. These arrangements will not change the price you pay for your Units.

**Sponsor Compensation.** The Sponsor will receive the total sales charge applicable to each transaction. Except as provided under "Unit Distribution," any sales charge discount provided to investors will be borne by the selling dealer or agent. In addition, the Sponsor will realize a profit or loss as a result of the difference between the price paid for the Securities by the Sponsor and the cost of the Securities to the Portfolio on the Initial Date of Deposit as well as on subsequent deposits. See "Notes to Portfolio". The Sponsor has not participated as sole underwriter or as manager or as a member of the underwriting syndicates or as an agent in a private placement for any of the Securities. The Sponsor may realize profit or loss as a result of the possible fluctuations in the market value of Units held by the Sponsor for sale to the public. In maintaining a secondary market, the Sponsor will realize profits or losses in the amount of any difference between the price at which Units are purchased and the price at which Units are resold (which price includes the applicable sales charge) or from a redemption of repurchased Units at a price above or below the purchase price. Cash, if any, made available to the Sponsor prior to the date of settlement for the purchase of Units may be used in the Sponsor's business and may be deemed to be a benefit to the Sponsor, subject to the limitations of the Securities Exchange Act of 1934, as amended ("1934 Act").

The Sponsor or an affiliate may have participated in a public offering of one or more of the Securities. The Sponsor, an affiliate or their employees may have a long or short position in these Securities or related securities. An affiliate may act as a specialist or market maker for these Securities. An officer, director or employee of the Sponsor or an affiliate may be an officer or director for issuers of the Securities.

**Market for Units.** Although it is not obligated to do so, the Sponsor may maintain a market for Units and to purchase Units at the secondary market repurchase price (which is described under “Right of Unitholders--Redemption of Units”). The Sponsor may discontinue purchases of Units or discontinue purchases at this price at any time. In the event that a secondary market is not maintained, a Unitholder will be able to dispose of Units by tendering them to the Trustee for redemption at the Redemption Price. See “Rights of Unitholders--Redemption of Units”. Unitholders should contact their broker to determine the best price for Units in the secondary market. Units sold prior to the time the entire deferred sales charge has been collected will be assessed the amount of any remaining deferred sales charge at the time of sale. The Trustee will notify the Sponsor of any Units tendered for redemption. If the Sponsor’s bid in the secondary market equals or exceeds the Redemption Price per Unit, it may purchase the Units not later than the day on which Units would have been redeemed by the Trustee. The Sponsor may sell repurchased Units at the secondary market Public Offering Price per Unit.

## **RETIREMENT ACCOUNTS**

---

Units are available for purchase in connection with certain types of tax-sheltered retirement plans, including Individual Retirement Accounts for individuals, Simplified Employee Pension Plans for employees, qualified plans for self-employed individuals, and qualified corporate pension and profit sharing plans for employees. The minimum purchase for these accounts is reduced to 25 Units but may vary by selling firm. The purchase of Units may be limited by the plans’ provisions and does not itself establish such plans.

## **FEE ACCOUNTS**

---

As described above, Units may be available for purchase by investors in Fee Accounts where the Portfolio is Wrap Fee Eligible. You should consult your financial professional to determine whether you can benefit from these accounts. This table illustrates the sales charge you will pay if the Portfolio is Wrap Fee Eligible as a percentage of the initial Public Offering

Price per Unit on the Initial Date of Deposit (the percentage will vary thereafter).

Initial sales charge	0.00%
Deferred sales charge	<u>0.00</u>
Transactional sales charge	<u>0.00%</u>
Creation and development fee	<u>0.50%</u>
Total sales charge	<u>0.50%</u>

You should consult the “Public Offering--Reducing Your Sales Charge” section for specific information on this and other sales charge discounts. That section governs the calculation of all sales charge discounts. The Sponsor reserves the right to limit or deny purchases of Units in Fee Accounts by investors or selling firms whose frequent trading activity is determined to be detrimental to the Portfolio. To purchase Units in these Fee Accounts, your financial professional must purchase Units designated with one of the Wrap Fee CUSIP numbers set forth under “Essential Information,” either Wrap Fee Cash for cash distributions or Wrap Fee Reinvest for the reinvestment of distributions in additional Units, if available. See “Rights of Unitholders--Reinvestment Option.”

## **RIGHTS OF UNITHOLDERS**

---

**Distributions.** The Trustee will generally distribute the cash held in the Income and Capital Accounts of your Portfolio, net of expenses, on each Distribution Date to Unitholders of record on the preceding Record Date, provided that the total cash held for distribution equals at least 0.1% of your Portfolio’s net asset value. These dates appear under “Essential Information”. Unitholders will also receive a final distribution of income when the Portfolio terminates. A person becomes a Unitholder of record on the date of settlement (generally three business days after Units are ordered, or any shorter period as may be prescribed by the applicable rules under the 1934 Act). Unitholders may elect to receive distributions in cash or to have distributions reinvested into additional Units. See “Rights of Unitholders--Reinvestment Option”.

Dividends and interest received by the Portfolio are credited to the Income Account of the Portfolio. Other

receipts (e.g., capital gains, proceeds from the sale of Securities, etc.) are credited to the Capital Account. Proceeds received on the sale of any Securities, to the extent not used to meet redemptions of Units or pay deferred sales charges, fees or expenses, will be distributed to Unitholders. Proceeds received from the disposition of any Securities after a Record Date and prior to the following Distribution Date will be held in the Capital Account and not distributed until the next Distribution Date. Any distribution to Unitholders consists of each Unitholder's pro rata share of the available cash in the Income and Capital Accounts as of the related Record Date.

**Estimated Distributions.** The estimated initial distribution and estimated net annual income per Unit may be shown under "Essential Information." Generally, the estimate of the income your Portfolio may receive is based on the most recent ordinary quarterly dividends declared by an issuer, the most recent interim and final dividends declared for certain foreign issuers, or scheduled income payments (in all cases accounting for any applicable foreign withholding taxes). In certain cases, estimated net annual income may also be based upon several recently declared dividends of an issuer. However, common stocks do not assure dividend payments and therefore the amount of future dividend income to your Portfolio is uncertain. The actual net annual distributions may decrease over time because a portion of the Securities included in your Portfolio will be sold to pay for the organization costs, deferred sales charge and creation and development fee. Securities may also be sold to pay regular fees and expenses during your Portfolio's life. Dividend and income conventions for certain companies and/or certain countries differ from those typically used in the United States and in certain instances, dividends/income paid or declared over several years or other periods may be used to estimate annual distributions. The actual net annual income distributions you receive will vary from the estimated amount due to changes in your Portfolio's fees and expenses, in actual income received by the Portfolio, currency fluctuations and with changes in the Portfolio such as the acquisition, call, maturity or sale of Securities. Due to these and various other factors,

actual income received by your Portfolio will most likely differ from the most recent dividends or scheduled income payments.

**Reinvestment Option.** Unitholders may have distributions automatically reinvested in additional Units without a sales charge (to the extent Units may be lawfully offered for sale in the state in which the Unitholder resides). The CUSIP numbers for either "Cash" distributions or "Reinvest" for the reinvestment of distributions are set forth under "Essential Information". Brokers and dealers can use the Dividend Reinvestment Service through Depository Trust Company ("DTC") or purchase a Reinvest (or Wrap Fee Reinvest in the case of Wrap Fee Eligible Units held in Fee Accounts) CUSIP, if available. To participate in this reinvestment option, a Unitholder must file with the Trustee a written notice of election, together with any other documentation that the Trustee may then require, at least five days prior to the related Record Date. A Unitholder's election will apply to all Units owned by the Unitholder and will remain in effect until changed by the Unitholder. The reinvestment option is not offered during the 30 calendar days prior to termination. If Units are unavailable for reinvestment or this reinvestment option is no longer available, distributions will be paid in cash. Distributions will be taxable to Unitholders if paid in cash or automatically reinvested in additional Units. See "Taxation".

A participant may elect to terminate his or her reinvestment plan and receive future distributions in cash by notifying the Trustee in writing no later than five days before a Distribution Date. The Sponsor shall have the right to suspend or terminate the reinvestment plan at any time. The reinvestment plan is subject to availability or limitation by each broker-dealer or selling firm. Broker-dealers may suspend or terminate the offering of a reinvestment plan at any time. Please contact your financial professional for additional information.

**Redemption of Units.** All or a portion of your Units may be tendered to The Bank of New York Mellon, the Trustee, for redemption at Unit Investment Trust Division, 111 Sanders Creek Parkway, East Syracuse, New York 13057, on any day the New York Stock Exchange is open. No redemption fee will be charged by the Sponsor

or the Trustee, but you are responsible for applicable governmental charges, if any. Units redeemed by the Trustee will be canceled. You may redeem all or a portion of your Units by sending a request for redemption to your bank or broker-dealer through which you hold your Units. No later than three business days (or any shorter period as may be prescribed by the applicable rules under the 1934 Act) following satisfactory tender, the Unitholder will be entitled to receive in cash an amount for each Unit equal to the Redemption Price per Unit next computed on the date of tender. The “date of tender” is deemed to be the date on which Units are received by the Trustee, except that with respect to Units received by the Trustee after the Evaluation Time or on a day which is not a business day, the date of tender is deemed to be the next business day. Redemption requests received by the Trustee after the Evaluation Time, and redemption requests received by authorized financial professionals after the Evaluation Time or redemption requests received by such persons that are not transmitted to the Trustee until after the time designated by the Trustee, are priced based on the date of the next determined redemption price provided they are received timely by the Trustee on such date. It is the responsibility of authorized financial professionals to transmit redemption requests received by them to the Trustee so they will be received in a timely manner. Certain broker-dealers or selling firms may charge an order handling fee for processing redemption requests. Units redeemed directly through the Trustee are not subject to such fees.

Unitholders tendering 1,000 or more Units of the Portfolio (or such higher amount as may be required by your broker-dealer or selling agent) for redemption may request an in kind distribution of Securities equal to the Redemption Price per Unit on the date of tender. Unitholders may not request an in kind distribution during the initial offering period or within 30 calendar days of the Portfolio’s termination. The Portfolio generally will not offer in kind distributions of portfolio securities that are held in foreign markets. An in kind distribution will be made by the Trustee through the distribution of each of the Securities in book-entry form to the account of the Unitholder’s broker-dealer at DTC. Amounts representing fractional shares will be distributed in cash.

The Trustee may adjust the number of shares of any Security included in a Unitholder’s in kind distribution to facilitate the distribution of whole shares. The in kind distribution option may be modified or discontinued at any time without notice. Notwithstanding the foregoing, if the Unitholder requesting an in kind distribution is the Sponsor or an affiliated person of the Portfolio, the Trustee may make an in kind distribution to such Unitholder provided that no one with a pecuniary incentive to influence the in kind distribution may influence selection of the distributed securities, the distribution must consist of a pro rata distribution of all portfolio securities (with limited exceptions) and the in kind distribution may not favor such affiliated person to the detriment of any other Unitholder. Unitholders will incur transaction costs in liquidating securities received in an in-kind distribution, and any such securities received will be subject to market risk until sold. In the event that any securities received in-kind are illiquid, Unitholders will bear the risk of not being able to sell such securities in the near term, or at all.

The Trustee may sell Securities to satisfy Unit redemptions. To the extent that Securities are redeemed in kind or sold, the size of the Portfolio will be, and the diversity of the Portfolio may be, reduced. Sales may be required at a time when Securities would not otherwise be sold and may result in lower prices than might otherwise be realized. The price received upon redemption may be more or less than the amount paid by the Unitholder depending on the value of the Securities at the time of redemption. Special federal income tax consequences will result if a Unitholder requests an in kind distribution. See “Taxation”.

The Redemption Price per Unit and the secondary market repurchase price per Unit are equal to the pro rata share of each Unit in the Portfolio determined on the basis of (i) the cash on hand in the Portfolio, (ii) the value of the Securities in the Portfolio and (iii) dividends or other income distributions receivable on the Securities in the Portfolio trading ex-dividend as of the date of computation, less (a) amounts representing taxes or other governmental charges payable out of the Portfolio, (b) the accrued expenses of the Portfolio (including costs associated with liquidating securities after the end of the

initial offering period) and (c) any unpaid deferred sales charge payments. During the initial offering period, the redemption price and the secondary market repurchase price are not reduced by the estimated organization costs or the creation and development fee. For these purposes, the Trustee will determine the value of the Securities as described under “Public Offering--Unit Price”.

The right of redemption may be suspended and payment postponed for any period during which the New York Stock Exchange is closed, other than for customary weekend and holiday closings, or any period during which the SEC determines that trading on that Exchange is restricted or an emergency exists, as a result of which disposal or evaluation of the Securities is not reasonably practicable, or for other periods as the SEC may permit.

**Exchange Option.** When you redeem Units of your Portfolio or when your Portfolio terminates (see “Rollover” above), you may be able to exchange your Units for units of other Invesco unit trusts at a reduced sales charge. You should contact your financial professional for more information about trusts currently available for exchanges. Before you exchange Units, you should read the prospectus of the new trust carefully and understand the risks and fees. You should then discuss this option with your financial professional to determine whether your investment goals have changed, whether current trusts suit you and to discuss tax consequences. An exchange is a taxable event to you. We may discontinue this option at any time.

**Rollover.** We may offer a subsequent series of the Portfolio for a Rollover when the Portfolio terminates.

On the Mandatory Termination Date you will have the option to (1) participate in a Rollover and have your Units reinvested into a subsequent trust series or (2) receive a cash distribution.

If you elect to participate in a cash Rollover, your Units will be redeemed on the Mandatory Termination Date. As the redemption proceeds become available, the proceeds (including dividends) will be invested in a new trust series at the public offering price for the new trust. The Trustee will attempt to sell Securities to satisfy the redemption as quickly as practicable on the Mandatory Termination Date. We do not anticipate that

the sale period will be longer than one day, however, certain factors could affect the ability to sell the Securities and could impact the length of the sale period. The liquidity of any Security depends on the daily trading volume of the Security and the amount available for redemption and reinvestment on any day.

We may make subsequent trust series available for sale at various times during the year. Of course, we cannot guarantee that a subsequent trust or sufficient units will be available or that any subsequent trust will offer the same investment strategy or objective as the current Portfolio. We cannot guarantee that a Rollover will avoid any negative market price consequences resulting from trading large volumes of securities. Market price trends may make it advantageous to sell or buy securities more quickly or more slowly than permitted by Portfolio procedures. We may, in our sole discretion, modify a Rollover or stop creating units of a trust at any time regardless of whether all proceeds of Unitholders have been reinvested in a Rollover. If we decide not to offer a subsequent series, Unitholders will be notified prior to the Mandatory Termination Date. Cash which has not been reinvested in a Rollover will be distributed to Unitholders shortly after the Mandatory Termination Date. Rollover participants may receive taxable dividends or realize taxable capital gains which are reinvested in connection with a Rollover but may not be entitled to a deduction for capital losses due to the “wash sale” tax rules. Due to the reinvestment in a subsequent trust, no cash will be distributed to pay any taxes. See “Taxation”.

**Units.** Ownership of Units is evidenced in book-entry form only and will not be evidenced by certificates. Units purchased or held through your bank or broker-dealer will be recorded in book-entry form and credited to the account of your bank or broker-dealer at DTC. Units are transferable by contacting your bank or broker-dealer through which you hold your Units. Transfer, and the requirements therefore, will be governed by the applicable procedures of DTC and your agreement with the DTC participant in whose name your Units are registered on the transfer records of DTC.

**Reports Provided.** Unitholders will receive a statement of dividends and other amounts received by

your Portfolio for each distribution. Within a reasonable time after the end of each year, each person who was a Unitholder during that year will receive a statement describing dividends and capital received, actual Portfolio distributions, Portfolio expenses, a list of the Securities and other Portfolio information. Unitholders may obtain evaluations of the Securities upon request to the Trustee. If you have questions regarding your account or your Portfolio, please contact your financial advisor or the Trustee. The Sponsor does not have access to individual account information.

## **PORTFOLIO ADMINISTRATION**

---

***Portfolio Administration.*** The Portfolio is not a managed fund and, except as provided in the Trust Agreement, Securities generally will not be sold or replaced. The Sponsor may, however, direct that Securities be sold in certain limited circumstances to protect the Portfolio based on advice from the Supervisor. These situations may include events such as the issuer having defaulted on payment of any of its outstanding obligations or the price of a Security has declined to such an extent or other credit factors exist so that in the opinion of the Supervisor retention of the Security would be detrimental to the Portfolio. If a public tender offer has been made for a Security or a merger or acquisition has been announced affecting a Security, the Trustee may either sell the Security or accept an offer for cash if the Supervisor determines that the sale or exchange is in the best interest of Unitholders. The Trustee will distribute any cash proceeds to Unitholders. In addition, the Trustee may sell Securities to redeem Units or pay Portfolio expenses or deferred sales charges. The Trustee must reject any offer for securities or property other than cash in exchange for the Securities. If securities or property are nonetheless acquired by the Portfolio, the Sponsor may direct the Trustee to sell the securities or property and distribute the proceeds to Unitholders or to accept the securities or property for deposit in the Portfolio. Should any contract for the purchase of any of the Securities fail, the Sponsor will (unless substantially all of the moneys held in the Portfolio to cover the purchase are reinvested in substitute

Securities in accordance with the Trust Agreement) refund the cash and sales charge attributable to the failed contract to all Unitholders on or before the next Distribution Date.

When your Portfolio sells Securities, the composition and diversity of the Securities in the Portfolio may be altered. In order to obtain the best price for a Security, it may be necessary for the Supervisor to specify minimum amounts (generally 100 shares) in which blocks of Securities are to be sold. In effecting purchases and sales of Portfolio securities, the Sponsor may direct that orders be placed with and brokerage commissions be paid to brokers, including brokers which may be affiliated with the Portfolio, the Sponsor or dealers participating in the offering of Units.

Pursuant to an exemptive order, your Portfolio may be permitted to sell Securities to a new trust when it terminates if those Securities are included in the new trust. The exemption may enable your Portfolio to eliminate commission costs on these transactions. The price for those securities will be the closing sale price on the sale date on the exchange where the Securities are principally traded, as certified by the Sponsor.

***Amendment of the Trust Agreement.*** The Trustee and the Sponsor may amend the Trust Agreement without the consent of Unitholders to correct any provision which may be defective or to make other provisions that will not materially adversely affect Unitholders (as determined in good faith by the Sponsor and the Trustee). The Trust Agreement may not be amended to increase the number of Units or permit acquisition of securities in addition to or substitution for the Securities (except as provided in the Trust Agreement). The Trustee will notify Unitholders of any amendment.

***Termination.*** The Portfolio will terminate on the Mandatory Termination Date specified under “Essential Information” or upon the sale or other disposition of the last Security held in the Portfolio. The Portfolio may be terminated at any time with consent of Unitholders representing two-thirds of the outstanding Units or by the Trustee when the value of the Portfolio is less than \$500,000 (\$3,000,000 if the value of the Portfolio has

exceeded \$15,000,000) (the “Minimum Termination Value”). The Portfolio will be liquidated by the Trustee in the event that a sufficient number of Units of the Portfolio not yet sold are tendered for redemption by the Sponsor, so that the net worth of the Portfolio would be reduced to less than 40% of the value of the Securities at the time they were deposited in the Portfolio. If the Portfolio is liquidated because of the redemption of unsold Units by the Sponsor, the Sponsor will refund to each purchaser of Units the entire sales charge paid by such purchaser. The Trustee may begin to sell Securities in connection with the Portfolio termination nine business days before, and no later than, the Mandatory Termination Date. Qualified Unitholders may elect an in kind distribution of Securities, provided that Unitholders may not request an in kind distribution of Securities within 30 calendar days of the Portfolio’s termination. Any in kind distribution of Securities will be made in the manner and subject to the restrictions described under “Rights of Unitholders--Redemption of Units”, provided that, in connection with an in kind distribution election more than 30 calendar days prior to termination, Unitholders tendering 1,000 or more Units of the Portfolio (or such higher amount as may be required by your broker-dealer or selling agent) may request an in kind distribution of Securities equal to the Redemption Price per Unit on the date of tender. Unitholders will receive a final cash distribution within a reasonable time after the Mandatory Termination Date. All distributions will be net of Portfolio expenses and costs. Unitholders will receive a final distribution statement following termination. The Information Supplement contains further information regarding termination of the Portfolio. See “Additional Information”.

**Limitations on Liabilities.** The Sponsor, Supervisor and Trustee are under no liability for taking any action or for refraining from taking any action in good faith pursuant to the Trust Agreement, or for errors in judgment, but shall be liable only for their own willful misfeasance, bad faith or gross negligence (negligence in the case of the Trustee) in the performance of their duties or by reason of their reckless disregard of their obligations and duties hereunder. The Trustee is not liable for depreciation or loss incurred by reason of the sale by the Trustee of any

of the Securities. In the event of the failure of the Sponsor to act under the Trust Agreement, the Trustee may act thereunder and is not liable for any action taken by it in good faith under the Trust Agreement. The Trustee is not liable for any taxes or other governmental charges imposed on the Securities, on it as Trustee under the Trust Agreement or on the Portfolio which the Trustee may be required to pay under any present or future law of the United States of America or of any other taxing authority having jurisdiction. In addition, the Trust Agreement contains other customary provisions limiting the liability of the Trustee. The Sponsor and Supervisor may rely on any evaluation furnished by the Trustee and have no responsibility for the accuracy thereof. Determinations by the Trustee shall be made in good faith upon the basis of the best information available to it.

**Sponsor.** Invesco Capital Markets, Inc. is the Sponsor of your Portfolio. The Sponsor is a wholly owned subsidiary of Invesco Advisers, Inc. (“Invesco Advisers”). Invesco Advisers is an indirect wholly owned subsidiary of Invesco Ltd., a leading independent global investment manager that provides a wide range of investment strategies and vehicles to its retail, institutional and high net worth clients around the globe. The Sponsor’s principal office is located at 11 Greenway Plaza, Houston, Texas 77046-1173. As of September 30, 2016, the total stockholders’ equity of Invesco Capital Markets, Inc. was \$107,355,978.54 (unaudited). The current assets under management and supervision by Invesco Ltd. and its affiliates were valued at approximately \$820.2 billion as of September 30, 2016.

The Sponsor and your Portfolio have adopted a code of ethics requiring Invesco Ltd.’s employees who have access to information on Portfolio transactions to report personal securities transactions. The purpose of the code is to avoid potential conflicts of interest and to prevent fraud, deception or misconduct with respect to your Portfolio. The Information Supplement contains additional information about the Sponsor.

If the Sponsor shall fail to perform any of its duties under the Trust Agreement or become incapable of acting or shall become bankrupt or its affairs are taken over by public authorities, then the Trustee may

(i) appoint a successor Sponsor at rates of compensation deemed by the Trustee to be reasonable and not exceeding amounts prescribed by the SEC, (ii) terminate the Trust Agreement and liquidate the Portfolio as provided therein or (iii) continue to act as Trustee without terminating the Trust Agreement.

**Trustee.** The Trustee is The Bank of New York Mellon, a trust company organized under the laws of New York. The Bank of New York Mellon has its principal unit investment trust division offices at 2 Hanson Place, 12th Floor, Brooklyn, New York 11217, (800) 856-8487. If you have questions regarding your account or your Portfolio, please contact the Trustee at its principal unit investment trust division office or your financial advisor. The Sponsor does not have access to individual account information. The Bank of New York Mellon is subject to supervision and examination by the Superintendent of Banks of the State of New York and the Board of Governors of the Federal Reserve System, and its deposits are insured by the Federal Deposit Insurance Corporation to the extent permitted by law. Additional information regarding the Trustee is set forth in the Information Supplement, including the Trustee's qualifications and duties, its ability to resign, the effect of a merger involving the Trustee and the Sponsor's ability to remove and replace the Trustee. See "Additional Information".

## **TAXATION**

---

This section summarizes some of the principal U.S. federal income tax consequences of owning Units of your Portfolio as of the date of this prospectus. Tax laws and interpretations are subject to change, possibly with retroactive effect. This summary does not describe all of the tax consequences to all taxpayers. For example, this summary generally does not describe your situation if you are a corporation, a non-U.S. person, a broker/dealer, a tax-exempt entity, financial institution, person who marks to market their Units or other investor with special circumstances. In addition, this section does not describe your state, local or foreign tax consequences of an investment in the Portfolio.

This federal income tax summary is based in part on the advice of counsel to the Sponsor. The Internal Revenue Service could disagree with any conclusions

set forth in this section. In addition, our counsel was not asked to review the tax treatment of the assets to be deposited in your Portfolio.

As with any investment, you should seek advice based on your individual circumstances from your own tax advisor.

**Assets of the Portfolio.** Your Portfolio is expected to hold shares of stock in corporations (the "Stocks") that are treated as equity for federal income tax purposes. It is possible that your Portfolio will also hold other assets, including assets that are treated differently for federal income tax purposes from those described above, in which case you will have federal income tax consequences different from or in addition to those described in this section. We refer to the assets held by your Portfolio as "Portfolio Assets".

**Portfolio Status.** If your Portfolio is at all times operated in accordance with the documents establishing your Portfolio and certain requirements of federal income tax law are met, your Portfolio will not be taxed as a corporation for federal income tax purposes. As a Unit owner, you will be treated as the owner of a pro rata portion of each of the Portfolio Assets, and as such you will be considered to have received a pro rata share of income (e.g., dividends and capital gains), if any from each Portfolio Asset when such income would be considered to be received by you if you directly owned the Portfolio Assets. This tax treatment applies even if you elect to have your distributions reinvested into additional Units. In addition, the income from Portfolio Assets that you must take into account for federal income tax purposes is not reduced by amounts used to pay sales charges or Portfolio expenses.

**Your Tax Basis and Income or Loss Upon Disposition.** If you dispose of your Units or redeem your Units for cash, you will generally recognize taxable gain or loss. To determine the amount of this gain or loss, you must subtract your adjusted tax basis in your Units disposed of from your proceeds received in the transaction. You also generally will recognize taxable gain or loss if your Portfolio disposes of Portfolio Assets based on your share of the Portfolio's disposition. Your initial tax

basis in each Portfolio Asset is determined by apportioning the cost of your Units, including sales charges, among the Portfolio Assets ratably according to their values on the date you acquire your Units. In certain circumstances, however, your tax basis in certain Portfolio Assets must be adjusted after you acquire your Units.

Dividends and net capital gains are subject to a 3.8% federal tax on net investment income for taxpayers at higher income levels.

Net capital gain equals net long-term capital gain minus net short-term capital loss for the taxable year. Capital gain or loss is long-term if the holding period for the asset is more than one year and is short-term if the holding period for the asset is one year or less. You must exclude the date you purchase your Units to determine your holding period. The tax rates for capital gains realized from assets held for one year or less are generally the same as for ordinary income. The deductibility of capital losses is subject to limitations under the Internal Revenue code of 1986, as amended (the "Code"), including generally a maximum deduction against ordinary income of \$3,000 per year.

**Dividends from Stocks.** Certain dividends received by non-corporate Unitholders with respect to the Stocks may qualify to be taxed at the same federal rates that apply to net capital gain (as discussed above), provided certain holding period requirements are satisfied. These are generally referred to as qualified dividends.

**Dividends Received Deduction.** Generally, a domestic corporation owning Units in the Portfolio may be eligible for the dividends received deduction with respect to such Unitholder's pro rata portion of certain types of dividends received by the Portfolio. However, a corporation generally will not be entitled to the dividends received deduction with respect to dividends from most foreign corporations.

**In Kind Distributions.** Under certain circumstances as described in this prospectus, you may request an in kind distribution of Portfolio Assets when you redeem your Units. By electing to receive an in kind distribution, you will receive Portfolio Assets plus, possibly, cash. You generally will not recognize gain or loss if you only receive whole Portfolio Assets in

exchange for the identical amount of your pro rata portion of the same Portfolio Assets held by your Portfolio. However, if you also receive cash in exchange for a Portfolio Asset or a fractional portion of a Portfolio Asset, you will generally recognize gain or loss based on the difference between the amount of cash you receive and your tax basis in such Portfolio Asset or fractional portion.

**Cash Distributions, Rollovers and Exchanges.**

If you receive cash when you redeem your Units or at your Portfolio's termination or if you elect to direct that the cash proceeds you are deemed to receive when you redeem your Units or at your Portfolio's termination be rolled into a future trust, it would generally be considered a sale for federal income tax purposes, and any gain on the sale will be treated as a capital gain, and, in general, any loss will be treated as a capital loss. However, any loss you incur in connection with the receipt or deemed receipt of cash, or in connection with the exchange of your Units of the Portfolio for units of another trust (deemed sale and subsequent deemed repurchase), will generally be disallowed to the extent you acquire units of a subsequent trust and such subsequent trust has substantially identical assets under the wash sale provisions of the Code.

**Limitations on the Deductibility of Portfolio Expenses.** Generally, for federal income tax purposes, you must take into account your full pro rata share of your Portfolio's income, even if some of that income is used to pay Portfolio expenses. You may deduct your pro rata share of each expense paid by your Portfolio to the same extent as if you directly paid the expense. You may be required to treat some or all of the expenses of your Portfolio as miscellaneous itemized deductions. Individuals may only deduct certain miscellaneous itemized deductions to the extent they exceed 2% of adjusted gross income.

**Foreign Investors.** If you are a foreign investor (*i.e.*, an investor other than a U.S. citizen or resident or a U.S. corporation, partnership, estate or trust), distributions of dividends and interest from your Portfolio generally are subject to U.S. federal income

taxes, including withholding taxes, unless certain conditions for exemption from U.S. taxation are met. Gains from the sale or redemption of your Units may not be subject to U.S. federal income taxes if you are not otherwise subject to net income taxation in the United States. In the case of Units held by nonresident alien individuals, foreign corporations or other non-U.S. persons, distributions by your Portfolio that are treated as U.S. source income (e.g., dividends received on stocks of domestic corporations) will generally be subject to U.S. income taxation and withholding, subject to any applicable treaty. You should consult your tax advisor with respect to the conditions you must meet in order to be exempt from U.S. taxation. You should also consult your tax advisor with respect to other U.S. tax withholding and reporting requirements.

**The Foreign Account Tax Compliance Act (“FATCA”).** A 30% withholding tax on your Portfolio’s distributions, including capital gains distributions, and on gross proceeds from the sale or other disposition of Units generally applies if paid to a foreign entity unless: (i) if the foreign entity is a “foreign financial institution” as defined under FATCA, the foreign entity undertakes certain due diligence, reporting, withholding, and certification obligations, (ii) if the foreign entity is not a “foreign financial institution,” it identifies certain of its U.S. investors or (iii) the foreign entity is otherwise excepted under FATCA. If required under rules above and subject to the applicability of any intergovernmental agreements between the United States and the relevant foreign country, withholding under FATCA may apply: (i) with respect to distributions from your Portfolio and (ii) with respect to certain capital gains distributions and gross proceeds from a sale or disposition of Units that occur on or after January 1, 2019. If withholding is required under FATCA on a payment related to your Units, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) on such payment generally will be required to seek a refund or credit from the IRS to obtain the benefit of such exemption or reduction. We will not pay any additional amounts in respect of amounts withheld under FATCA. You should consult

your tax advisor regarding the effect of FATCA based on your individual circumstances.

**Foreign Taxes.** Some distributions or income earned by your Portfolio may be subject to foreign withholding taxes. Any income withheld will still be treated as income to you. Under the grantor trust rules, you are considered to have paid directly your share of any foreign taxes that are paid. Therefore, for U.S. tax purposes, you may be entitled to a foreign tax credit or deduction for those foreign taxes.

**Backup Withholding.** By law, your Portfolio must withhold as backup withholding a percentage (formerly 28%) of your taxable distributions and redemption proceeds if you do not provide your correct social security or taxpayer identification number and certify that you are not subject to backup withholding, or if the IRS instructs your Portfolio to do so.

**New York Tax Status.** Under the existing income tax laws of the State and City of New York, your Portfolio will not be taxed as a corporation subject to the New York State franchise tax and the New York City general corporation tax. You should consult your tax advisor regarding potential federal, foreign, state or local taxation with respect to your Units based on individual circumstances.

## **PORTFOLIO OPERATING EXPENSES**

---

**General.** The fees and expenses of your Portfolio will generally accrue on a daily basis. Portfolio operating fees and expenses are generally paid out of the Income Account to the extent funds are available, and then from the Capital Account. The deferred sales charge, creation and development fee and organization costs are generally paid out of the Capital Account of your Portfolio. It is expected that Securities will be sold to pay these amounts which will result in capital gains or losses to Unitholders. See “Taxation”. These sales will reduce future income distributions. The Sponsor’s, Supervisor’s and Trustee’s fees may be increased without approval of the Unitholders by amounts not exceeding proportionate increases under the category “Services Less Rent of Shelter” in the Consumer Price Index for

All Urban Consumers or, if this category is not published, in a comparable category.

**Organization Costs.** You and the other Unitholders will bear all or a portion of the organization costs and charges incurred in connection with the establishment of your Portfolio. These costs and charges will include the cost of the preparation, printing and execution of the trust agreement, registration statement and other documents relating to your Portfolio, federal and state registration fees and costs, the initial fees and expenses of the Trustee, and legal and auditing expenses. The Public Offering Price of Units includes the estimated amount of these costs. The Trustee will deduct these expenses from your Portfolio's assets at the end of the initial offering period.

**Creation and Development Fee.** The Sponsor will receive a fee from your Portfolio for creating and developing the Portfolio, including determining the Portfolio's objectives, policies, composition and size, selecting service providers and information services and for providing other similar administrative and ministerial functions. The creation and development fee is a charge of \$0.05 per Unit. The Trustee will deduct this amount from your Portfolio's assets as of the close of the initial offering period. No portion of this fee is applied to the payment of distribution expenses or as compensation for sales efforts. This fee will not be deducted from proceeds received upon a repurchase, redemption or exchange of Units before the close of the initial public offering period.

**Trustee's Fee.** For its services the Trustee will receive the fee from your Portfolio set forth in the "Fee Table" (which includes the estimated amount of miscellaneous Portfolio expenses). The Trustee benefits to the extent there are funds in the Capital and Income Accounts since these Accounts are non-interest bearing to Unitholders and the amounts earned by the Trustee are retained by the Trustee. Part of the Trustee's compensation for its services to your Portfolio is expected to result from the use of these funds.

**Compensation of Sponsor and Supervisor.** The Sponsor and the Supervisor, which is an affiliate of the Sponsor, will receive the annual fees for providing

bookkeeping and administrative services and portfolio supervisory services set forth in the "Fee Table". These fees may exceed the actual costs of providing these services to your Portfolio but at no time will the total amount received for these services rendered to all Invesco unit investment trusts in any calendar year exceed the aggregate cost of providing these services in that year.

**Miscellaneous Expenses.** The following additional charges are or may be incurred by your Portfolio: (a) normal expenses (including the cost of mailing reports to Unitholders) incurred in connection with the operation of the Portfolio, (b) fees of the Trustee for extraordinary services, (c) expenses of the Trustee (including legal and auditing expenses) and of counsel designated by the Sponsor, (d) various governmental charges, (e) expenses and costs of any action taken by the Trustee to protect the Portfolio and the rights and interests of Unitholders, (f) indemnification of the Trustee for any loss, liability or expenses incurred in the administration of the Portfolio without negligence, bad faith or wilful misconduct on its part, (g) costs associated with liquidating the securities held in the Portfolio, (h) any offering costs incurred after the end of the initial offering period and (i) expenditures incurred in contacting Unitholders upon termination of the Portfolio. The Portfolio may pay the expenses of updating its registration statement each year.

## **OTHER MATTERS**

---

**Legal Opinions.** The legality of the Units offered hereby has been passed upon by Paul Hastings LLP. Dorsey & Whitney LLP has acted as counsel to the Trustee.

**Independent Registered Public Accounting Firm.** The statement of condition and the related portfolio included in this prospectus have been audited by Grant Thornton LLP, independent registered public accounting firm, as set forth in their report in this prospectus, and are included herein in reliance upon the authority of said firm as experts in accounting and auditing.

## **ADDITIONAL INFORMATION**

---

This prospectus does not contain all the information set forth in the registration statements filed by your Portfolio with the SEC under the Securities Act of 1933 and the Investment Company Act of 1940 (file no. 811-2754). The Information Supplement, which has been filed with the SEC and is incorporated herein by reference, includes more detailed information concerning the Securities, investment risks and general information about the Portfolio. Information about your Portfolio (including the Information Supplement) can be reviewed and copied at the SEC's Public Reference Room in Washington, DC. You may obtain information about the Public Reference Room by calling 1-202-551-8090. Reports and other information about your Portfolio are available on the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>. Copies of this information may be obtained, after paying a duplication fee, by electronic request at the following e-mail address: [publicinfo@sec.gov](mailto:publicinfo@sec.gov) or by writing the SEC's Public Reference Section, Washington, DC 20549-0102.

## PROSPECTUS

---

*January 30, 2017*

### **“Big Debates: 2017” Portfolio**

---

When Units of the Portfolio are no longer available this prospectus may be used as a preliminary prospectus for a future Portfolio. If this prospectus is used for future Portfolios you should note the following:

*The information in this prospectus is not complete with respect to future Portfolio series and may be changed. No person may sell Units of future Portfolios until a registration statement is filed with the Securities and Exchange Commission and is effective. This prospectus is not an offer to sell Units and is not soliciting an offer to buy Units in any state where the offer or sale is not permitted.*
