Dividend Sustainability Portfolio

Investment Objective. The Portfolio seeks above average capital appreciation.

Principal Investment Strategy. The Portfolio seeks to achieve its objective by investing in a portfolio of common stocks of companies derived from the S&P 500 Dividend Aristocrats Index. The S&P 500 Dividend Aristocrats Index consists of stocks of those companies contained in the S&P 500 Index that have followed a policy of consistently increasing dividends every year for at least 25 years. Invesco Capital Markets, Inc., the Sponsor, selected the stocks for the Portfolio from among the S&P 500 Dividend Aristocrats Index component list as most recently made available to the Sponsor prior to the Initial Date of Deposit.

The Portfolio will consist of companies selected by the Sponsor from a selection universe of companies included in the S&P 500 Dividend Aristocrats Index; the companies, if rated, must have a domestic S&P Global Quality Rank of B or better and, if rated, an S&P Global Issuer Credit Rating of BBB or better.

Beginning with the S&P 500 Dividend Aristocrats Index, the Sponsor selected the composition of the Portfolio by: (1) eliminating companies with a share price below \$5 at the time of selection; (2) eliminating companies, if rated, with an S&P Global Quality Ranking below B and, if rated, with an S&P Global Issuer Credit Rating below BBB (companies which do not have a domestic S&P Global Quality Rank or an S&P Global Issuer Credit Rating may be included); and (3) applying a fundamental, qualitative selection process focusing on factors including, but not limited to:

- Valuation – Companies whose current valuations appear attractive relative to long-term trends;
- Growth – Companies with a history of and prospects for above average growth of sales and earnings;
- Cash Flow Generation – Companies with a history of generating attractive operating and free cash flows in order to facilitate current and future dividends;

- Balance Sheet – Companies displaying balance sheet strength evidenced by a history of achieving strong financial results and making disciplined capital management decisions; and
- Returns – Companies with a history of above average returns on invested capital.

Of course, we cannot guarantee that your Portfolio will achieve its objective. The value of your Units may fall below the price you paid for the Units. You should read the “Risk Factors” section before you invest.

The Portfolio is designed as part of a long-term investment strategy. The Sponsor may offer a subsequent series of the portfolio when the current Portfolio terminates. As a result, you may achieve more consistent overall results by following the strategy through reinvestment of your proceeds over several years if subsequent series are available. Repeatedly rolling over an investment in a unit investment trust may differ from long-term investments in other investment products when considering the sales charges, fees, expenses and tax consequences attributable to a Unitholder. For more information see “Rights of Unitholders--Rollover”.

Principal Risks. As with all investments, you can lose money by investing in this Portfolio. The Portfolio also might not perform as well as you expect. This can happen for reasons such as these:

- **Security prices will fluctuate.** The value of your investment may fall over time.
- **An issuer may be unwilling or unable to declare dividends in the future, or may reduce the level of dividends declared.** This may result in a reduction in the value of your Units.
- **The financial condition of an issuer may worsen or its credit ratings may drop, resulting in a reduction in the value of your Units.** This may occur at any point in time, including during the initial offering period.
- **You could experience dilution of your investment if the size of the Portfolio**

is increased as Units are sold. There is no assurance that your investment will maintain its proportionate share in the Portfolio's profits and losses.

- **The Portfolio does not replicate all of the components of the S&P 500 Dividend Aristocrats Index or its component weightings and the stocks in the Portfolio will not change if the index components, or their weightings within the index, change.** The performance of the Portfolio will not correspond with the S&P 500 Dividend Aristocrats Index for this reason and because the Portfolio incurs a sales charge and expenses. The Portfolio is not intended to replicate the performance of the index.
- **We do not actively manage the Portfolio.** Except in limited circumstances, the Portfolio will hold, and may continue to buy, shares of the same securities even if their market value declines.

Fee Table

The amounts below are estimates of the direct and indirect expenses that you may incur based on a \$10 Public Offering Price per Unit. Actual expenses may vary.

Sales Charge	As a % of Public Offering Price	Amount Per 100 Units
Initial sales charge	0.000%	\$ 0.000
Deferred sales charge	2.250	22.500
Creation and development fee	0.500	5.000
Maximum sales charge	<u>2.750%</u>	<u>\$27.500</u>

Estimated Organization Costs	As a % of Net Assets	Amount Per 100 Units
	<u>0.142%</u>	<u>\$1.375</u>

Estimated Annual Expenses	As a % of Net Assets	Amount Per 100 Units
Trustee's fee and operating expenses	0.201%	\$1.952
Supervisory, bookkeeping and administrative fees	<u>0.057</u>	<u>0.550</u>
Total	<u>0.258%</u>	<u>\$2.502*</u>

Example

This example helps you compare the cost of the Portfolio with other unit trusts and mutual funds. In the example we assume that the expenses do not change and that the Portfolio's annual return is 5%. Your actual returns and expenses will vary. This example also assumes that you continue to follow the Portfolio strategy and roll your investment, including all distributions, into a new trust every two years subject to a sales charge of 2.75%. Based on these assumptions, you would pay the following expenses for every \$10,000 you invest in the Portfolio:

1 year	\$	314
3 years		673
5 years		1,057
10 years		1,932

* The estimated annual expenses are based upon the estimated trust size for the Portfolio determined as of the initial date of deposit. Because certain of the operating expenses are fixed amounts, if the Portfolio does not reach the estimated size, or if the value of the Portfolio or number of outstanding units decline over the life of the trust, or if the actual amount of the operating expenses exceeds the estimated amounts, the actual amount of the operating expenses per 100 units would exceed the estimated amounts. In some cases, the actual amount of operating expenses may substantially differ from the amounts reflected above.

The maximum sales charge is 2.75% of the Public Offering Price per Unit. There is no initial sales charge at a Public Offering Price of \$10 or less. If the Public Offering Price exceeds \$10 per Unit, the initial sales charge is the difference between the total sales charge (maximum of 2.75% of the Public Offering Price) and the sum of the remaining deferred sales charge and the creation and development fee. The deferred sales charge is fixed at \$0.225 per Unit and accrues daily from December 10, 2019 through May 9, 2020. Your Portfolio pays a proportionate amount of this charge on the 10th day of each month beginning in the accrual period until paid in full. The combination of the initial and deferred sales charges comprises the "transactional sales charge". The creation and development fee is fixed at \$0.05 per Unit and is paid at the earlier of the end of the initial offering period (anticipated to be three months) or six months following the Initial Date of Deposit. For more detail, see "Public Offering Price - General."

Essential Information

Unit Price at Initial Date of Deposit	\$10.0000
Initial Date of Deposit	August 6, 2019
Mandatory Termination Date	August 4, 2021
Historical 12 Month Distributions¹	\$0.22506 per Unit
Estimated Initial Distribution¹	\$0.07 per Unit
Record Dates	10 th day of each December, March, June and September, commencing December 10, 2019
Distribution Dates	25 th day of each December, March, June and September, commencing December 25, 2019
CUSIP Numbers	Cash – 46144H144 Reinvest – 46144H151 Fee Based Cash – 46144H169 Fee Based Reinvest – 46144H177

1 As of close of business day prior to Initial Date of Deposit. The actual distributions you receive will vary from this per Unit amount due to changes in the Portfolio's fees and expenses, in actual income received by the Portfolio, currency fluctuations and with changes in the Portfolio such as the acquisition or liquidation of securities. See "Rights of Unitholders--Historical and Estimated Distributions."

See "Notes to Portfolios".

International Dividend Sustainability Portfolio

Investment Objective. The Portfolio seeks above average capital appreciation.

Principal Investment Strategy. The Portfolio seeks to achieve its objective by investing in a portfolio of international common stocks and American Depositary Receipts (“ADRs”) of companies with a history of increasing dividend distributions. Invesco Capital Markets, Inc., the Sponsor, only considered companies with an S&P Global Issuer Credit Rating of BBB- or higher and a minimum share price of \$5 (USD) at the time of selection. Companies considered for inclusion in the Portfolio must have demonstrated consistent dividend per share growth over the last 5 years.

Beginning with a universe of foreign companies that trade on a U.S. stock exchange, either directly or through an ADR, the Sponsor selected the composition of the Portfolio by: (1) eliminating companies with a share price below \$5 at the time of selection; (2) eliminating companies with an S&P Global Issuer Credit Rating below BBB-; (3) eliminating companies that have not demonstrated consistent dividend per share growth over the last 5 years; and (4) applying a fundamental, qualitative selection process focusing on factors including, but not limited to:

- Valuation – Companies whose current valuations appear attractive relative to long-term trends;
- Growth – Companies with a history of and prospects for above average growth of sales and earnings;
- Cash Flow Generation – Companies with a history of generating attractive operating and free cash flow in order to facilitate current and future dividends;
- Balance Sheet – Companies displaying balance sheet strength evidenced by a history of achieving strong financial results and making disciplined capital management decisions; and
- Returns – Companies with a history of above average returns on invested capital.

The final Portfolio is constructed so that no more than 50% of the Portfolio will be invested in any one particular country and a minimum of 5 countries will be represented in the Portfolio at the time of selection.

Of course, we cannot guarantee that your Portfolio will achieve its objective. The value of your Units may fall below the price you paid for the Units. You should read the “Risk Factors” section before you invest.

The Portfolio is designed as part of a long-term investment strategy. The Sponsor may offer a subsequent series of the portfolio when the current Portfolio terminates. As a result, you may achieve more consistent overall results by following the strategy through reinvestment of your proceeds over several years if subsequent series are available. Repeatedly rolling over an investment in a unit investment trust may differ from long-term investments in other investment products when considering the sales charges, fees, expenses and tax consequences attributable to a Unitholder. For more information see “Rights of Unitholders--Rollover”.

Principal Risks. As with all investments, you can lose money by investing in this Portfolio. The Portfolio also might not perform as well as you expect. This can happen for reasons such as these:

- **Security prices will fluctuate.** The value of your investment may fall over time.
- **An issuer may be unwilling or unable to declare dividends in the future, or may reduce the level of dividends declared.** This may result in a reduction in the value of your Units.
- **The financial condition of an issuer may worsen or its credit ratings may drop, resulting in a reduction in the value of your Units.** This may occur at any point in time, including during the initial offering period.
- **You could experience dilution of your investment if the size of the Portfolio is increased as Units are sold.** There is

no assurance that your investment will maintain its proportionate share in the Portfolio's profits and losses.

- **Stocks of foreign companies in the Portfolio present risks beyond those of U.S. issuers.** These risks may include market and political factors related to the company's foreign market, international trade conditions, less regulation, smaller or less liquid markets, increased volatility, differing accounting practices and changes in the value of foreign currencies.
- **The Portfolio is concentrated in securities issued by companies domiciled in Canada.** As a result, political or economic developments in Canada may have a significant impact on the securities included in the Portfolio.
- **We do not actively manage the Portfolio.** Except in limited circumstances, the Portfolio will hold, and may continue to buy, shares of the same securities even if their market value declines.

Fee Table

The amounts below are estimates of the direct and indirect expenses that you may incur based on a \$10 Public Offering Price per Unit. Actual expenses may vary.

Sales Charge	As a % of Public Offering Price	Amount Per 100 Units
Initial sales charge	0.000%	\$ 0.000
Deferred sales charge	2.250	22.500
Creation and development fee	0.500	5.000
Maximum sales charge	<u>2.750%</u>	<u>\$27.500</u>

Estimated Organization Costs	As a % of Net Assets	Amount Per 100 Units
	<u>0.442%</u>	<u>\$4.275</u>
Estimated Annual Expenses		
Trustee's fee and operating expenses	0.213%	\$2.066
Supervisory, bookkeeping and administrative fees	<u>0.057</u>	<u>0.550</u>
Total	<u>0.270%</u>	<u>\$2.616*</u>

Example

This example helps you compare the cost of the Portfolio with other unit trusts and mutual funds. In the example we assume that the expenses do not change and that the Portfolio's annual return is 5%. Your actual returns and expenses will vary. This example also assumes that you continue to follow the Portfolio strategy and roll your investment, including all distributions, into a new trust every two years subject to a sales charge of 2.75%. Based on these assumptions, you would pay the following expenses for every \$10,000 you invest in the Portfolio:

1 year	\$	344
3 years		736
5 years		1,152
10 years		2,096

* The estimated annual expenses are based upon the estimated trust size for the Portfolio determined as of the initial date of deposit. Because certain of the operating expenses are fixed amounts, if the Portfolio does not reach the estimated size, or if the value of the Portfolio or number of outstanding units decline over the life of the trust, or if the actual amount of the operating expenses exceeds the estimated amounts, the actual amount of the operating expenses per 100 units would exceed the estimated amounts. In some cases, the actual amount of operating expenses may substantially differ from the amounts reflected above.

The maximum sales charge is 2.75% of the Public Offering Price per Unit. There is no initial sales charge at a Public Offering Price of \$10 or less. If the Public Offering Price exceeds \$10 per Unit, the initial sales charge is the difference between the total sales charge (maximum of 2.75% of the Public Offering Price) and the sum of the remaining deferred sales charge and the creation and development fee. The deferred sales charge is fixed at \$0.225 per Unit and accrues daily from December 10, 2019 through May 9, 2020. Your Portfolio pays a proportionate amount of this charge on the 10th day of each month beginning in the accrual period until paid in full. The combination of the initial and deferred sales charges comprises the "transactional sales charge". The creation and development fee is fixed at \$0.05 per Unit and is paid at the earlier of the end of the initial offering period (anticipated to be three months) or six months following the Initial Date of Deposit. For more detail, see "Public Offering Price - General."

European Dividend Sustainability Portfolio

Investment Objective. The Portfolio seeks above average capital appreciation.

Principal Investment Strategy. The Portfolio seeks to achieve its objective by investing in a portfolio of common stocks of companies and American Depositary Receipts (“ADRs”) of companies derived from the S&P Europe 350 Dividend Aristocrats Index. The S&P Europe 350 Dividend Aristocrats Index consists of stocks of those companies contained in the S&P Europe 350 Index that have followed a managed-dividends policy of consistently increasing dividends every year for at least 10 years. Invesco Capital Markets, Inc., the Sponsor, selected the stocks for the Portfolio from among the S&P Europe 350 Dividend Aristocrats Index component list as most recently made available to the Sponsor prior to the Initial Date of Deposit.

The Portfolio consists of companies from the S&P Europe 350 Dividend Aristocrats Index that have displayed attractive recent dividend per share growth. The Sponsor selected the final portfolio by applying a fundamental, qualitative selection process focusing on factors including, but not limited to:

- Valuation – Companies whose current valuations appear attractive relative to long-term trends;
- Growth – Companies with a history of and prospects for above average growth of sales and earnings;
- Cash Flow Generation – Companies with a history of generating attractive operating and free cash flows in order to facilitate current and future dividends;
- Balance Sheet – Companies displaying balance sheet strength evidenced by a history of achieving strong financial results and making disciplined capital management decisions; and
- Returns – Companies with a history of above average returns on invested capital.

Of course, we cannot guarantee that your Portfolio will achieve its objective. The value of your Units may fall below the price you paid for the Units. You should read the “Risk Factors” section before you invest.

The Portfolio is designed as part of a long-term investment strategy. The Sponsor may offer a subsequent series of the portfolio when the current Portfolio terminates. As a result, you may achieve more consistent overall results by following the strategy through reinvestment of your proceeds over several years if subsequent series are available. Repeatedly rolling over an investment in a unit investment trust may differ from long-term investments in other investment products when considering the sales charges, fees, expenses and tax consequences attributable to a Unitholder. For more information see “Rights of Unitholders--Rollover”.

Principal Risks. As with all investments, you can lose money by investing in this Portfolio. The Portfolio also might not perform as well as you expect. This can happen for reasons such as these:

- **Security prices will fluctuate.** The value of your investment may fall over time.
- **An issuer may be unwilling or unable to declare dividends in the future, or may reduce the level of dividends declared.** This may result in a reduction in the value of your Units.
- **The financial condition of an issuer may worsen or its credit ratings may drop, resulting in a reduction in the value of your Units.** This may occur at any point in time, including during the initial offering period.
- **You could experience dilution of your investment if the size of the Portfolio is increased as Units are sold.** There is no assurance that your investment will maintain its proportionate share in the Portfolio’s profits and losses.

- **Stocks of foreign companies in the Portfolio present risks beyond those of U.S. issuers.** These risks may include market and political factors related to the company's foreign market, international trade conditions, less regulation, smaller or less liquid markets, increased volatility, differing accounting practices and changes in the value of foreign currencies.
- **The Portfolio is concentrated in securities issued by companies domiciled in the United Kingdom.** As a result, political or economic developments in the United Kingdom may have a significant impact on the securities included in the Portfolio.
- **We do not actively manage the Portfolio.** Except in limited circumstances, the Portfolio will hold, and may continue to buy, shares of the same securities even if their market value declines.

Fee Table

The amounts below are estimates of the direct and indirect expenses that you may incur based on a \$10 Public Offering Price per Unit. Actual expenses may vary.

Sales Charge	As a % of Public Offering Price	Amount Per 100 Units
Initial sales charge	0.000%	\$ 0.000
Deferred sales charge	2.250	22.500
Creation and development fee	0.500	5.000
Maximum sales charge	<u>2.750%</u>	<u>\$27.500</u>

Estimated Organization Costs	As a % of Net Assets	Amount Per 100 Units
	<u>0.673%</u>	<u>\$6.500</u>

Estimated Annual Expenses	As a % of Net Assets	Amount Per 100 Units
Trustee's fee and operating expenses	0.588%	\$5.682
Supervisory, bookkeeping and administrative fees	<u>0.057</u>	<u>0.550</u>
Total	<u>0.645%</u>	<u>\$6.232*</u>

Example

This example helps you compare the cost of the Portfolio with other unit trusts and mutual funds. In the example we assume that the expenses do not change and that the Portfolio's annual return is 5%. Your actual returns and expenses will vary. This example also assumes that you continue to follow the Portfolio strategy and roll your investment, including all distributions, into a new trust every two years subject to a sales charge of 2.75%. Based on these assumptions, you would pay the following expenses for every \$10,000 you invest in the Portfolio:

1 year	\$ 402
3 years	888
5 years	1,399
10 years	2,578

* The estimated annual expenses are based upon the estimated trust size for the Portfolio determined as of the initial date of deposit. Because certain of the operating expenses are fixed amounts, if the Portfolio does not reach the estimated size, or if the value of the Portfolio or number of outstanding units decline over the life of the trust, or if the actual amount of the operating expenses exceeds the estimated amounts, the actual amount of the operating expenses per 100 units would exceed the estimated amounts. In some cases, the actual amount of operating expenses may substantially differ from the amounts reflected above.

The maximum sales charge is 2.75% of the Public Offering Price per Unit. There is no initial sales charge at a Public Offering Price of \$10 or less. If the Public Offering Price exceeds \$10 per Unit, the initial sales charge is the difference between the total sales charge (maximum of 2.75% of the Public Offering Price) and the sum of the remaining deferred sales charge and the creation and development fee. The deferred sales charge is fixed at \$0.225 per Unit and accrues daily from December 10, 2019 through May 9, 2020. Your Portfolio pays a proportionate amount of this charge on the 10th day of each month beginning in the accrual period until paid in full. The combination of the initial and deferred sales charges comprises the "transactional sales charge". The creation and development fee is fixed at \$0.05 per Unit and is paid at the earlier of the end of the initial offering period (anticipated to be three months) or six months following the Initial Date of Deposit. For more detail, see "Public Offering Price - General."

See "Notes to Portfolios".

Global Dividend Sustainability Portfolio

Investment Objective. The Portfolio seeks above average capital appreciation.

Principal Investment Strategy. The Portfolio seeks to achieve its objective by investing in a portfolio of stocks of foreign and domestic companies selected by applying three separate specialized strategies. The Dividend Sustainability Strategy will make up approximately 60% of the initial Portfolio, while the International Dividend Sustainability Strategy and the European Dividend Sustainability Strategy will each comprise approximately 20%. Invesco Capital Markets, Inc. is the Sponsor of the Portfolio.

The *Dividend Sustainability Strategy* selects common stocks of companies derived from the S&P 500 Dividend Aristocrats Index. The S&P 500 Dividend Aristocrats Index consists of stocks of those companies contained in the S&P 500 Index that have followed a policy of consistently increasing dividends every year for at least 25 years. The Sponsor selected the stocks for the Portfolio from among the S&P 500 Dividend Aristocrats Index component list as most recently made available to the Sponsor prior to the Initial Date of Deposit.

The Portfolio will consist of companies selected by the Sponsor from a selection universe of companies included in the S&P 500 Dividend Aristocrats Index; the companies, if rated, must have a domestic S&P Global Quality Rank of B or better and, if rated, an S&P Global Issuer Credit Rating of BBB or better.

Beginning with the S&P 500 Dividend Aristocrats Index, the Sponsor selected the composition of the Portfolio by: (1) eliminating companies with a share price below \$5 at the time of selection; (2) eliminating companies, if rated, with an S&P Global Quality Ranking below B and, if rated, with an S&P Global Issuer Credit Rating below BBB (companies which do not have a domestic S&P Global Quality Rank or an S&P Global Issuer Credit Rating may be included); and (3) applying a fundamental, qualitative selection process focusing on factors including, but not limited to:

- Valuation – Companies whose current valuations appear attractive relative to long-term trends;
- Growth – Companies with a history of and prospects for above average growth of sales and earnings;
- Cash Flow Generation – Companies with a history of generating attractive operating and free cash flows in order to facilitate current and future dividends;
- Balance Sheet – Companies displaying balance sheet strength evidenced by a history of achieving strong financial results and making disciplined capital management decisions; and
- Returns – Companies with a history of above average returns on invested capital.

The *International Dividend Sustainability Strategy* selects international common stocks and American Depository Receipts (“ADRs”) of companies with a history of increasing dividend distributions. The Sponsor only considered companies with an S&P Global Issuer Credit Rating of BBB- or higher and a minimum share price of \$5 (USD) at the time of selection. Companies considered for inclusion in the Portfolio must have demonstrated consistent dividend per share growth over the last 5 years.

Beginning with a universe of foreign companies that trade on a U.S. stock exchange, either directly or through an ADR, the Sponsor selected the composition of the Portfolio by: (1) eliminating companies with a share price below \$5 at the time of selection; (2) eliminating companies with an S&P Global Issuer Credit Rating below BBB-; (3) eliminating companies that have not demonstrated consistent dividend per share growth over the last 5 years; and (4) applying a fundamental, qualitative selection process focusing on factors including, but not limited to:

- Valuation – Companies whose current valuations appear attractive relative to long-term trends;

- Growth – Companies with a history of and prospects for above average growth of sales and earnings;
- Cash Flow Generation – Companies with a history of generating attractive operating and free cash flow in order to facilitate current and future dividends;
- Balance Sheet – Companies displaying balance sheet strength evidenced by a history of achieving strong financial results and making disciplined capital management decisions; and
- Returns – Companies with a history of above average returns on invested capital.

The final Portfolio is constructed so that no more than 50% of the Portfolio will be invested in any one particular country and a minimum of 5 countries will be represented in the Portfolio at the time of selection.

The *European Dividend Sustainability Strategy* selects common stocks of companies and ADRs of companies derived from the S&P Europe 350 Dividend Aristocrats Index. The S&P Europe 350 Dividend Aristocrats Index consists of stocks of those companies contained in the S&P Europe 350 Index that have followed a managed-dividends policy of consistently increasing dividends every year for at least 10 years. The Sponsor selected the stocks for the Portfolio from among the S&P Europe 350 Dividend Aristocrats Index component list as most recently made available to the Sponsor prior to the Initial Date of Deposit.

The Portfolio consists of companies from the S&P Europe 350 Dividend Aristocrats Index that have displayed attractive recent dividend per share growth. The Sponsor selected the final portfolio by applying a fundamental, qualitative selection process focusing on factors including, but not limited to:

- Valuation – Companies whose current valuations appear attractive relative to long-term trends;
- Growth – Companies with a history of and prospects for above average growth of sales and earnings;

- Cash Flow Generation – Companies with a history of generating attractive operating and free cash flows in order to facilitate current and future dividends;
- Balance Sheet – Companies displaying balance sheet strength evidenced by a history of achieving strong financial results and making disciplined capital management decisions; and
- Returns – Companies with a history of above average returns on invested capital.

Of course, we cannot guarantee that your Portfolio will achieve its objective. The value of your Units may fall below the price you paid for the Units. You should read the “Risk Factors” section before you invest.

The Portfolio is designed as part of a long-term investment strategy. The Sponsor may offer a subsequent series of the portfolio when the current Portfolio terminates. As a result, you may achieve more consistent overall results by following the strategy through reinvestment of your proceeds over several years if subsequent series are available. Repeatedly rolling over an investment in a unit investment trust may differ from long-term investments in other investment products when considering the sales charges, fees, expenses and tax consequences attributable to a Unitholder. For more information see “Rights of Unitholders--Rollover”.

Principal Risks. As with all investments, you can lose money by investing in this Portfolio. The Portfolio also might not perform as well as you expect. This can happen for reasons such as these:

- **Security prices will fluctuate.** The value of your investment may fall over time.
- **An issuer may be unwilling or unable to declare dividends in the future, or may reduce the level of dividends declared.** This may result in a reduction in the value of your Units.

- **The financial condition of an issuer may worsen or its credit ratings may drop, resulting in a reduction in the value of your Units.** This may occur at any point in time, including during the initial offering period.
- **You could experience dilution of your investment if the size of the Portfolio is increased as Units are sold.** There is no assurance that your investment will maintain its proportionate share in the Portfolio's profits and losses.
- **Stocks of foreign companies in the Portfolio present risks beyond those of U.S. issuers.** These risks may include market and political factors related to the company's foreign market, international trade conditions, less regulation, smaller or less liquid markets, increased volatility, differing accounting practices and changes in the value of foreign currencies.
- **We do not actively manage the Portfolio.** Except in limited circumstances, the Portfolio will hold, and may continue to buy, shares of the same securities even if their market value declines.

Fee Table

The amounts below are estimates of the direct and indirect expenses that you may incur based on a \$10 Public Offering Price per Unit. Actual expenses may vary.

Sales Charge	As a % of Public Offering Price	Amount Per 100 Units
Initial sales charge	0.000%	\$ 0.000
Deferred sales charge	2.250	22.500
Creation and development fee	0.500	5.000
Maximum sales charge	<u>2.750%</u>	<u>\$27.500</u>

Estimated Organization Costs	As a % of Net Assets	Amount Per 100 Units
	<u>0.410%</u>	<u>\$3.969</u>
Estimated Annual Expenses		
Trustee's fee and operating expenses	0.357%	\$3.462
Supervisory, bookkeeping and administrative fees	<u>0.057</u>	<u>0.550</u>
Total	<u>0.414%</u>	<u>\$4.012*</u>

Example

This example helps you compare the cost of the Portfolio with other unit trusts and mutual funds. In the example we assume that the expenses do not change and that the Portfolio's annual return is 5%. Your actual returns and expenses will vary. This example also assumes that you continue to follow the Portfolio strategy and roll your investment, including all distributions, into a new trust every two years subject to a sales charge of 2.75%. Based on these assumptions, you would pay the following expenses for every \$10,000 you invest in the Portfolio:

1 year	\$	355
3 years		772
5 years		1,213
10 years		2,225

* The estimated annual expenses are based upon the estimated trust size for the Portfolio determined as of the initial date of deposit. Because certain of the operating expenses are fixed amounts, if the Portfolio does not reach the estimated size, or if the value of the Portfolio or number of outstanding units decline over the life of the trust, or if the actual amount of the operating expenses exceeds the estimated amounts, the actual amount of the operating expenses per 100 units would exceed the estimated amounts. In some cases, the actual amount of operating expenses may substantially differ from the amounts reflected above.

The maximum sales charge is 2.75% of the Public Offering Price per Unit. There is no initial sales charge at a Public Offering Price of \$10 or less. If the Public Offering Price exceeds \$10 per Unit, the initial sales charge is the difference between the total sales charge (maximum of 2.75% of the Public Offering Price) and the sum of the remaining deferred sales charge and the creation and development fee. The deferred sales charge is fixed at \$0.225 per Unit and accrues daily from December 10, 2019 through May 9, 2020. Your Portfolio pays a proportionate amount of this charge on the 10th day of each month beginning in the accrual period until paid in full. The combination of the initial and deferred sales charges comprises the "transactional sales charge". The creation and development fee is fixed at \$0.05 per Unit and is paid at the earlier of the end of the initial offering period (anticipated to be three months) or six months following the Initial Date of Deposit. For more detail, see "Public Offering Price - General."

Essential Information

Unit Price at Initial Date of Deposit	\$10.0000
Initial Date of Deposit	August 6, 2019
Mandatory Termination Date	August 4, 2021
Historical 12 Month Distributions¹	\$0.20692 per Unit
Estimated Initial Distribution¹	\$0.06 per Unit
Record Dates	10 th day of each December, March, June and September, commencing December 10, 2019
Distribution Dates	25 th day of each December, March, June and September, commencing December 25, 2019
CUSIP Numbers	Cash – 46144H268 Reinvest – 46144H276 Fee Based Cash – 46144H284 Fee Based Reinvest – 46144H292

1 As of close of business day prior to Initial Date of Deposit. The actual distributions you receive will vary from this per Unit amount due to changes in the Portfolio's fees and expenses, in actual income received by the Portfolio, currency fluctuations and with changes in the Portfolio such as the acquisition or liquidation of securities. See "Rights of Unitholders--Historical and Estimated Distributions."

Notes to Portfolios

- (1) The Securities are initially represented by “regular way” contracts for the performance of which an irrevocable letter of credit has been deposited with the Trustee. Contracts to acquire Securities were entered into on August 5, 2019 and have a settlement date of August 7, 2019 (see “The Portfolios”).
- (2) The value of each Security is determined on the bases set forth under “Public Offering--Unit Price” as of the close of the New York Stock Exchange on the business day before the Initial Date of Deposit. In accordance with FASB Accounting Standards Codification (“ASC”), ASC 820, Fair Value Measurements and Disclosures, the Portfolio’s investments are classified as Level 1, which refers to security prices determined using quoted prices in active markets for identical securities. Other information regarding the Securities, as of the Initial Date of Deposit, is as follows:

	Cost to Sponsor	Profit (Loss) To Sponsor
Dividend Sustainability Portfolio	\$ 148,114	\$ (32)
International Dividend Sustainability Portfolio	\$ 148,012	\$ (100)
European Dividend Sustainability Portfolio	\$ 172,950	\$ (806)
Global Dividend Sustainability Portfolio	\$ 344,774	\$ (413)

“+” indicates that the security was issued by a foreign company.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Sponsor and Unitholders of Invesco Unit Trusts, Series 1987:

Opinion on the Financial Statements

We have audited the accompanying statements of condition (including the related portfolio schedules) of Dividend Sustainability Portfolio 2019-3; International Dividend Sustainability Portfolio 2019-3; European Dividend Sustainability Portfolio 2019-3; and Global Dividend Sustainability Portfolio 2019-3 (included in Invesco Unit Trusts, Series 1987 (the "Trust")) as of August 6, 2019, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Trust as of August 6, 2019, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of Invesco Capital Markets, Inc., the Sponsor. Our responsibility is to express an opinion on the Trust's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by the Sponsor, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of cash or irrevocable letters of credit deposited for the purchase of securities as shown in the statements of condition as of August 6, 2019 by correspondence with The Bank of New York Mellon, Trustee. We believe that our audits provide a reasonable basis for our opinion.

GRANT THORNTON LLP

We have served as the auditor of one or more of the unit investment trusts, sponsored by Invesco Capital Markets, Inc. and its predecessors, since 1976.

New York, New York

Net asset value per Unit	<u>\$ 9.711</u>	<u>\$ 9.682</u>	<u>\$ 9.660</u>	<u>\$ 9.685</u>

- (1) The value of the Securities is determined by the Trustee on the bases set forth under "Public Offering--Unit Price". The contracts to purchase Securities are collateralized by separate irrevocable letters of credit which have been deposited with the Trustee.
- (2) A portion of the Public Offering Price represents an amount sufficient to pay for all or a portion of the costs incurred in establishing a Portfolio. The amount of these costs are set forth in the "Fee Table". A distribution will be made as of the earlier of the close of the initial offering period (approximately three months) or six months following the Initial Date of Deposit to an account maintained by the Trustee from which the organization expense obligation of the investors will be satisfied. To the extent that actual organization costs of a Portfolio are greater than the estimated amount, only the estimated organization costs added to the Public Offering Price will be reimbursed to the Sponsor and deducted from the assets of the Portfolio.
- (3) Represents the amount of mandatory distributions from a Portfolio on the bases set forth under "Public Offering".
- (4) The creation and development fee is payable by a Portfolio on behalf of Unitholders out of the assets of the Portfolio as of the close of the initial offering period. If Units are redeemed prior to the close of the initial public offering period, the fee will not be deducted from the proceeds.
- (5) The aggregate public offering price and the aggregate sales charge are computed on the bases set forth under "Public Offering".
- (6) Assumes the maximum sales charge.

THE PORTFOLIOS

The Portfolios were created under the laws of the State of New York pursuant to a Trust Indenture and Trust Agreement (the “Trust Agreement”), dated the date of this prospectus (the “Initial Date of Deposit”), among Invesco Capital Markets, Inc., as Sponsor and Invesco Investment Advisers LLC, as Supervisor, and The Bank of New York Mellon, as Trustee.

The Portfolios offer investors the opportunity to purchase Units representing proportionate interests in a portfolio of securities. Each Portfolio may be an appropriate medium for investors who desire to participate in a portfolio of securities with greater diversification than they might be able to acquire individually.

On the Initial Date of Deposit, the Sponsor deposited delivery statements relating to contracts for the purchase of the Securities and an irrevocable letter of credit in the amount required for these purchases with the Trustee. In exchange for these contracts the Trustee delivered to the Sponsor documentation evidencing the ownership of Units of the Portfolios. Unless otherwise terminated as provided in the Trust Agreement, your Portfolio will terminate on the Mandatory Termination Date and any remaining Securities will be liquidated or distributed by the Trustee within a reasonable time. As used in this prospectus the term “Securities” means the securities (including contracts to purchase these securities) listed in the “Portfolios” and any additional securities deposited into the Portfolios.

Additional Units of your Portfolio may be issued at any time by depositing in the Portfolio (i) additional Securities, (ii) contracts to purchase Securities together with cash or irrevocable letters of credit or (iii) cash (or a letter of credit or the equivalent) with instructions to purchase additional Securities. As additional Units are issued by your Portfolio, the aggregate value of the Securities will be increased and the fractional undivided interest represented by each Unit may be decreased. The Sponsor may continue to make additional deposits into your Portfolio following the Initial Date of Deposit provided that the additional deposits will be in amounts which will maintain, as nearly as practicable, the same

percentage relationship among the number of shares of each Security in the Portfolio that existed immediately prior to the subsequent deposit. Investors may experience a dilution of their investments and a reduction in their anticipated income because of fluctuations in the prices of the Securities between the time of the deposit and the purchase of the Securities and because your Portfolio will pay the associated brokerage or acquisition fees. Due to round lot requirements in certain foreign securities markets and market value fluctuations, your Portfolio may not be able to invest in each Security on any subsequent date of deposit in the same proportion as existed on the Initial Date of Deposit or immediately prior to the subsequent deposit of Securities. This could increase the potential for dilution of investments and variances in anticipated income. In addition, during the initial offering of Units it may not be possible to buy a particular Security due to regulatory or trading restrictions, or corporate actions. While such limitations are in effect, additional Units would be created by purchasing each of the Securities in your Portfolio that are not subject to those limitations. This would also result in the dilution of the investment in any such Security not purchased and potential variances in anticipated income. Purchases and sales of Securities by your Portfolio may impact the value of the Securities. This may especially be the case during the initial offering of Units, upon Portfolio termination and in the course of satisfying large Unit redemptions.

Each Unit of your Portfolio initially offered represents an undivided interest in the Portfolio. At the close of the New York Stock Exchange on the Initial Date of Deposit, the number of Units may be adjusted so that the Public Offering Price per Unit equals \$10. The number of Units, fractional interest of each Unit in your Portfolio and any historical or estimated per Unit distribution amount will increase or decrease to the extent of any adjustment. To the extent that any Units are redeemed to the Trustee or additional Units are issued as a result of additional Securities being deposited by the Sponsor, the fractional undivided interest in your Portfolio represented by each unredeemed Unit will increase or decrease accordingly,

although the actual interest in your Portfolio will remain unchanged. Units will remain outstanding until redeemed upon tender to the Trustee by Unitholders, which may include the Sponsor, or until the termination of the Trust Agreement.

Your Portfolio consists of (a) the Securities (including contracts for the purchase thereof) listed under the applicable “Portfolio” as may continue to be held from time to time in the Portfolio, (b) any additional Securities acquired and held by the Portfolio pursuant to the provisions of the Trust Agreement and (c) any cash held in the related Income and Capital Accounts. Neither the Sponsor nor the Trustee shall be liable in any way for any contract failure in any of the Securities.

OBJECTIVES AND SECURITIES SELECTION

The objective of your Portfolio is described in the individual Portfolio sections. There is no assurance that your Portfolio will achieve its objective.

Dividend Sustainability Portfolio and Global Dividend Sustainability Portfolio. The Sponsor, on behalf of the Dividend Sustainability Portfolio and Global Dividend Sustainability Portfolio, has entered into a license agreement with S&P Opco, LLC under which the Portfolios are granted a license to use certain trademarks and tradenames, to the extent the Sponsor deems appropriate and desirable under federal and state securities laws to indicate the index that is a source for determining the composition of the Portfolios.

Each Portfolio is based in part on an S&P Index, but is not sponsored, endorsed, marketed or promoted by S&P Dow Jones Indices LLC or its affiliates or its third party licensors, including Standard & Poor’s Financial Services LLC (“SPFS”) and Dow Jones Trademark Holdings LLC (“Dow Jones”) (collectively, “S&P Dow Jones Indices”). S&P® is a registered trademark of SPFS, and Dow Jones® is a registered trademark of Dow Jones and have been licensed for use.

Each Portfolio is not sponsored, endorsed, sold or promoted by S&P Dow Jones Indices. S&P Dow Jones Indices does not make any representation or warranty, express or implied, to the owners of each Portfolio or

any member of the public regarding the advisability of investing in securities generally or in those Portfolios particularly. S&P Dow Jones Indices’ only relationship to the Sponsor with respect to each Portfolio is the licensing of the underlying S&P Index, certain trademarks, service marks and trade names of S&P Dow Jones Indices, and the provision of the calculation services. S&P Dow Jones Indices is not responsible for and has not participated in the determination of the prices and amount of each Portfolio or the timing of the issuance or sale of those Portfolios or in the determination or calculation of the equation by which those Portfolios may be converted into cash or other redemption mechanics. S&P Dow Jones Indices has no obligation or liability in connection with the administration, marketing or trading of each Portfolio. S&P Dow Jones Indices LLC is not an investment advisor. Inclusion of a security within a Portfolio is not a recommendation by S&P Dow Jones Indices to buy, sell, or hold such security, nor is it investment advice.

S&P DOW JONES INDICES DOES NOT GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS AND/OR THE COMPLETENESS OF EACH PORTFOLIO, INTELLECTUAL PROPERTY, SOFTWARE, OR ANY DATA RELATED THERETO OR ANY COMMUNICATION WITH RESPECT THERETO, INCLUDING, ORAL, WRITTEN, OR ELECTRONIC COMMUNICATIONS. S&P DOW JONES INDICES SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN. S&P DOW JONES INDICES MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR AS TO RESULTS TO BE OBTAINED BY THE SPONSOR, OWNERS OF EACH PORTFOLIO, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THOSE PORTFOLIOS, INTELLECTUAL PROPERTY, SOFTWARE, OR WITH RESPECT TO ANY DATA RELATED THERETO. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P DOW JONES INDICES BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL

DAMAGES, INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME, OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE.

European Dividend Sustainability Portfolio and Global Dividend Sustainability Portfolio. S&P® is a registered trademark of Standard & Poor's Financial Services LLC and has been licensed for use by S&P Dow Jones Indices LLC and sublicensed for certain purposes by the Sponsor. S&P Europe 350 Dividend Aristocrats™ is a trademark of S&P Dow Jones Indices LLC or its affiliates. The S&P Europe 350 Dividend Aristocrats Index (the "Index") is a product of S&P Dow Jones Indices LLC, and has been licensed for use by the Sponsor.

The European Dividend Sustainability Portfolio and Global Dividend Sustainability Portfolio are not sponsored, endorsed, sold or promoted by S&P Dow Jones Indices LLC or its affiliates or third party licensors (together, "S&P Dow Jones Indices"). S&P Dow Jones Indices does not make any representation or warranty, express or implied, to the owners of the Portfolios or any member of the public regarding the advisability of investing in securities generally or in the Portfolios particularly or the ability of the Index to track general market performance. S&P Dow Jones Indices' only relationship to the Sponsor with respect to the Index is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices. The Index is determined, composed and calculated by S&P Dow Jones Indices without regard to the Sponsor or the Portfolios. S&P Dow Jones Indices has no obligation to take the needs of the Sponsor or the owners of the Portfolios into consideration in determining, composing or calculating the Index. S&P Dow Jones Indices is not responsible for and has not participated in the determination of the prices, and amount of the Portfolios or the timing of the issuance or sale of the Portfolios or in the determination or calculation of the equation by which the Portfolios are to be selected. S&P Dow Jones Indices has no obligation or liability in connection with the administration,

marketing or trading of the Portfolios. There is no assurance that investment products based on the Index will accurately track index performance or provide positive investment returns. S&P Dow Jones Indices LLC is not an investment advisor. Inclusion of a security within an index is not a recommendation by S&P Dow Jones Indices to buy, sell, or hold such security, nor is it considered to be investment advice.

S&P DOW JONES INDICES DOES NOT GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS AND/OR THE COMPLETENESS OF THE INDEX OR ANY DATA RELATED THERETO OR ANY COMMUNICATION, INCLUDING BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATION (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P DOW JONES INDICES SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN. S&P DOW JONES INDICES MAKE NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR AS TO RESULTS TO BE OBTAINED BY THE SPONSOR, OWNERS OF THE PORTFOLIOS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX OR WITH RESPECT TO ANY DATA RELATED THERETO. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P DOW JONES INDICES BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND THE SPONSOR, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.

The Sponsor does not manage the Portfolios. You should note that the Sponsor applied the selection criteria to the Securities for inclusion in your Portfolio

prior to the Initial Date of Deposit. After this time, the Securities may no longer meet the selection criteria. Should a Security no longer meet the selection criteria, we will generally not remove the Security from its Portfolio. In offering the Units to the public, neither the Sponsor nor any broker-dealers are recommending any of the individual Securities but rather the entire pool of Securities in a Portfolio, taken as a whole, which are represented by the Units.

RISK FACTORS

All investments involve risk. This section describes the main risks that can impact the value of the securities in your Portfolio. You should understand these risks before you invest. If the value of the securities falls, the value of your Units will also fall. We cannot guarantee that your Portfolio will achieve its objective or that your investment return will be positive over any period.

Market Risk. Market risk is the risk that the value of the securities in your Portfolio will fluctuate. This could cause the value of your Units to fall below your original purchase price. Market value fluctuates in response to various factors. These can include changes in interest rates, inflation, the financial condition of a security's issuer, perceptions of the issuer, or ratings on a security of the issuer. Even though your Portfolio is supervised, you should remember that we do not manage your Portfolio. Your Portfolio will not sell a security solely because the market value falls as is possible in a managed fund.

Dividend Payment Risk. Dividend payment risk is the risk that an issuer of a security is unwilling or unable to pay dividends on a security. Stocks represent ownership interests in the issuers and are not obligations of the issuers. Common stockholders have a right to receive dividends only after the company has provided for payment of its creditors, bondholders and preferred stockholders. Common stocks do not assure dividend payments. Dividends are paid only when declared by an issuer's board of directors and the amount of any dividend may vary over time. If dividends received by your Portfolio are insufficient to cover expenses, redemptions or other Portfolio costs, it may

be necessary for your Portfolio to sell Securities to cover such expenses, redemptions or other costs. Any such sales may result in capital gains or losses to you. See "Taxation".

Index Correlation. The Dividend Sustainability Portfolio will consist of stocks from the S&P 500 Dividend Aristocrats Index, the European Dividend Sustainability Portfolio will consist of stocks from the S&P Europe 350 Dividend Aristocrats Index and the Global Dividend Sustainability Portfolio will consist of stocks from both the S&P 500 Dividend Aristocrats Index and the S&P Euro Dividend Aristocrats Index. Your Portfolio does not seek to replicate all of the components of the Index or its component weightings and the stocks in the Portfolio will not change if the index components, or their weightings within the index, change. The performance of your Portfolio will not correspond with the index for this reason and because your Portfolio incurs a sales charge and expenses.

Foreign Stocks. Because the International Dividend Sustainability Portfolio and European Dividend Sustainability Portfolio invest exclusively in foreign stocks, and the Global Dividend Sustainability Portfolio invests significantly in foreign stocks, these Portfolios may involve additional risks that differ from an investment in domestic stocks. These risks include the risk of losses due to future political and economic developments, international trade conditions, foreign withholding taxes and restrictions on foreign investments or exchange of securities, foreign currency fluctuations or restriction on exchange or repatriation of currencies.

The political, economic and social structures of some foreign countries may be less stable and more volatile than those in the U.S. Investments in these countries may be subject to the risks of internal and external conflicts, currency devaluations, foreign ownership limitations and tax increases. It is possible that a government may take over the assets or operations of a company or impose restrictions on the exchange or export of currency or other assets. Some countries also may have different legal systems that may make it difficult for a Portfolio to vote proxies, exercise investor rights, and pursue legal remedies with respect to its foreign investments. Diplomatic and political

developments, including rapid and adverse political changes, social instability, regional conflicts, terrorism and war, could affect the economies, industries, and securities and currency markets, and the value of a Portfolio's investments, in non-U.S. countries. No one can predict the impact that these factors could have on a Portfolio's securities.

Certain stocks may be held in the form of American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs"), or other similar receipts. ADRs and GDRs represent receipts for foreign common stock deposited with a custodian (which may include the Trustee). The ADRs in your Portfolio, if any, trade in the U.S. in U.S. dollars and are registered with the SEC. GDRs are receipts, issued by foreign banks or trust companies, or foreign branches of U.S. banks, that represent an interest in shares of either a foreign or U.S. corporation. These instruments may not necessarily be denominated in the same currency as the securities into which they may be converted. ADRs and GDRs generally involve the same types of risks as foreign common stock held directly. Some ADRs and GDRs may experience less liquidity than the underlying common stocks traded in their home market. The Portfolios may invest in sponsored or unsponsored ADRs. Unlike a sponsored ADR where the depository has an exclusive relationship with the foreign issuer, an unsponsored ADR may be created by a depository institution independently and without the cooperation of the foreign issuer. Consequently, information concerning the foreign issuer may be less current or reliable for an unsponsored ADR and the price of an unsponsored ADR may be more volatile than if it was a sponsored ADR. Depositories of unsponsored ADRs are not required to distribute shareholder communications received from the foreign issuer or to pass through voting rights to its holders. The holders of unsponsored ADRs generally bear all the costs associated with establishing the unsponsored ADR, whereas the foreign issuers typically bear certain costs in a sponsored ADR.

The purchase and sale of the foreign securities may occur in foreign securities markets. Certain of the factors stated above may make it impossible to buy or sell them in a timely manner or may adversely affect the

value received on a sale of securities. Custody of certain of the securities in your Portfolio may be maintained by a global custody and clearing institution which has entered into a sub-custodian relationship with the Trustee. In addition, round lot trading requirements exist in certain foreign securities markets. These round lot trading requirements could cause the proportional composition and diversification of your Portfolio's securities to vary when the Portfolio purchases additional securities or sells securities to satisfy expenses or Unit redemptions. This could have a material impact on investment performance and portfolio composition. Brokerage commissions and other fees generally are higher for foreign securities. Government supervision and regulation of foreign securities markets, currency markets, trading systems and brokers may be less than in the U.S. The procedures and rules governing foreign transactions and custody (holding of the Portfolios' assets) also may involve delays in payment, delivery or recovery of money or investments.

Foreign companies may not be subject to the same disclosure, accounting, auditing and financial reporting standards and practices as U.S. companies. Thus, there may be less information publicly available about foreign companies than about most U.S. companies.

Certain foreign securities may be less liquid (harder to sell) and more volatile than many U.S. securities. This means the Portfolios may at times be unable to sell foreign securities in a timely manner or at favorable prices.

Because securities of foreign issuers not listed on a U.S. securities exchange generally pay dividends and trade in foreign currencies, the U.S. dollar value of these securities and dividends will vary with fluctuations in foreign exchange rates. Most foreign currencies have fluctuated widely in value against the U.S. dollar for various economic and political reasons. To determine the value of foreign securities or their dividends, the Trustee will estimate current exchange rates for the relevant currencies based on activity in the various currency exchange markets. However, these markets can be quite volatile depending on the activity of the large international commercial banks, various central

banks, large multi-national corporations, speculators and other buyers and sellers of foreign currencies. Since actual foreign currency transactions may not be instantly reported, the exchange rates estimated by the Trustee may not reflect the amount your Portfolio would receive in U.S. dollars, had the Trustee sold any particular currency in the market. The value of the Securities in terms of U.S. dollars, and therefore the value of your Units, will decline if the U.S. dollar decreases in value relative to the value of the currencies in which the Securities trade.

European Issuers. The International Sustainability Portfolio, the European Sustainability Portfolio and the Global Dividend Sustainability Portfolio invest significantly in securities issued by European companies. Investments in a single region, even though representing a number of different countries within the region, may be affected by common economic forces and other factors. A significant number of countries in Europe are member states in the (“EU”), and the member states no longer control their own monetary policies by directing independent interest rates for their currencies. In these member states, the authority to direct monetary policies including money supply and official interest rates for the Euro is exercised by the European Central Bank. The European sovereign debt crisis and the related austerity measures in certain countries have had, and continue to have, a significant impact on the economies of certain European countries and their future economic outlooks. Further, political or economic disruptions in European countries, even in countries in which your Portfolio is not invested, may adversely affect security values and thus the Portfolio’s holdings. The risks associated with investing in European securities may be heightened because of risks due to the inexperience of financial intermediaries, the lack of modern technology, the lack of a sufficient capital base to expand business operations and the possibility of permanent or temporary termination of trading and greater spreads between bid and asked prices for securities in those markets.

As discussed under the “United Kingdom” subsection below, there is particular uncertainty regarding the state of the EU following the United

Kingdom’s (“U.K.”) initiation on March 27, 2017 of the process to exit from the EU (“Brexit”). Brexit marks the first time that a significant member of the EU will have left and there is no detailed mechanism in the treaties establishing the EU for a member to exit. The precise economic impact will depend on many factors, including the future trade arrangement between the U.K. and the rest of the EU.

United Kingdom. The International Dividend Sustainability Portfolio and European Dividend Sustainability Portfolio invest significantly in securities issued by companies located in the U.K. As a result, your Portfolio may be affected unfavorably by political developments, social instability, changes in government policies and other political and economic developments in the U.K. Following a 2016 public referendum in which the British public voted in favor of Brexit, the nation’s Prime Minister officially set the exit process in motion on March 27, 2017 and the U.K. is currently attempting to reach a consensus on an exit plan and exit date.

The U.K. and the EU are currently in negotiations to reach a trade agreement before the exit date and the U.K. will, in many cases, need to negotiate new free trade agreements with countries outside the EU. There is currently no clarity on the trading arrangements which will apply in respect of the U.K. after Brexit, and one of the biggest concerns is that the U.K. will leave the EU with no trade agreement in place. If the U.K. leaves the EU without a trade agreement in place, Britain’s position as a global financial center could be compromised. As a result, it could lead to such far reaching consequences in the U.K. as the blocking of ports, the grounding airlines and limiting or eliminating the ability of the U.K. to import food and drugs, job loss, negative effects on the housing market, and losing the ability to bid on public contracts with the EU. As a result, some within the U.K. are calling for a new referendum to revoke the Brexit vote and remain in the EU.

Since the Brexit vote, there has been heightened uncertainty, diminished confidence and lower spending and investment which resulted in weaker growth. The precise impact of the Brexit decision on the U.K. will only become clearer as the negotiations surrounding Brexit progress. Of course, the Sponsor cannot predict

the length of the time or processes involved in the U.K.'s exit from the EU.

On October 27, 2017, S&P reaffirmed its downgrade of the U.K.'s AAA rating to AA. S&P previously stated that Brexit will hurt growth as it will lead to less predictable, stable, and effective policy framework in the U.K. and put the U.K. at greater risk as it faces substantial challenges to successfully negotiating its exit.

Canada. The International Dividend Sustainability Portfolio invests significantly in stocks issued by companies headquartered, or with a significant presence, in Canada. Canada is a major producer of commodities, including forest products, metals, agricultural products and energy related products, including oil, gas, and hydroelectricity. Accordingly, changes in the supply and demand of base commodity resources and industrial and precious metals and materials, both domestically and internationally, can have a significant effect on Canadian market performance.

France. The European Dividend Sustainability Portfolio invests significantly in stocks issued by companies located in France. Despite some recent reform and privatization, the French government continues to control a large portion of French economic activity. The government owns shares in corporations in a range of sectors including banking, energy production and distribution, automotive, transportation and telecommunications. Therefore, government instability can have a negative effect on the French economy. In particular, heavy regulation of labor and product markets is pervasive and can stifle French economic growth or cause prolonged periods of recession.

The French economy is susceptible to risks relating to its membership in the EU. The French economy, along with certain other EU economies, experienced a significant economic slowdown during the recent financial crisis. As a result, the French economy has experienced volatility and adverse trends due to concerns about a prolonged economic downturn and rising government debt levels amidst the EU sovereign debt crisis. Interest rates on France's debt may rise to levels that make it difficult for it to service high debt levels without significant financial help from, among

others, the European Central Bank, and could potentially lead to default.

The French economy is dependent to a significant extent on the economies of certain key trading partners, including Germany and other Western European countries. Reduction in spending on French products and services, or changes in any of those economies may have an adverse impact on the French economy. The French economy is dependent on agricultural exports, and as a result, is susceptible to fluctuations in demand for agricultural products. France may also be subject to acts of terrorism, which can negatively affect its economy and in particular its tourism industry.

Switzerland. The International Dividend Sustainability Portfolio invests significantly in stocks issued by companies located in Switzerland. Although Switzerland is not a member of the EU, the Swiss economy is dependent on the economies of other European nations as key trading partners. Any reduction in spending by other European countries could have a negative effect on the Swiss economy. The European sovereign-debt crisis has resulted in a weakened Euro and has put into question the future financial prospects of the surrounding region. The ongoing implementation of the EU provisions and Euro conversion process may materially impact revenues, expenses or income and increase competition for other European companies, which could have an effect on the Swiss economy. Since Switzerland has few natural resources, any fluctuation or shortage in the commodity markets could have a negative impact on the nation's economy.

Industry Risks. The Portfolios invest significantly in certain industries. Any negative impact on these industries will have a greater impact on the value of Units than on a portfolio diversified over several industries. You should understand the risks of these industries before you invest.

The relative weighting or composition of your Portfolio may change during the life of your Portfolio. Following the Initial Date of Deposit, the Sponsor intends to issue additional Units by depositing in your Portfolio additional securities in a manner consistent with the provisions described in the above section

entitled “The Portfolios”. As described in that section, it may not be possible to retain or continue to purchase one or more Securities in your Portfolio. In addition, due to certain limited circumstances described under “Portfolio Administration”, the composition of the Securities in your Portfolio may change. Accordingly, the fluctuations in the relative weighting or composition of your Portfolio may result in concentrations (25% or more of a Portfolio’s assets) in securities of a particular type, industry and/or geographic region described in this section.

Consumer Discretionary and Consumer Staples Issuers. Your Portfolio invests significantly in companies that manufacture or sell various consumer products. General risks of these companies include the overall state of the economy, intense competition and consumer spending trends. A decline in the economy which results in a reduction of consumers’ disposable income can negatively impact spending habits. Global factors including political developments, imposition of import controls, fluctuations in oil prices, and changes in exchange rates may adversely affect issuers of consumer products and services.

Competitiveness in the retail industry may require large capital outlays for the installation of automated checkout equipment to control inventory, track the sale of items and gauge the success of sales campaigns. Retailers who sell their products over the Internet have the potential to access more consumers, but may require sophisticated technology to remain competitive. Changes in demographics and consumer tastes can also affect the demand for, and the success of, consumer products and services in the marketplace. Consumer products and services companies may be subject to government regulation affecting their products and operations which may negatively impact performance. Tobacco companies may be adversely affected by new laws, regulations and litigation.

Health Care Issuers. The European Dividend Sustainability Portfolio invests significantly in health care companies. These issuers include companies involved in advanced medical devices and instruments, drugs and biotechnology, managed care, hospital management/health services and medical

supplies. These companies face substantial government regulation and approval procedures. General risks of health care companies include extensive competition, product liability litigation and evolving government regulation.

Drug and medical products companies face the risk of increasing competition from new products or services, generic drug sales, product obsolescence, increased government regulation, termination of patent protection for drug or medical supply products and the risk that a product will never come to market. The research and development costs of bringing a new drug or medical product to market are substantial. This process involves lengthy government review with no guarantee of approval. These companies may have losses and may not offer proposed products for several years, if at all. The failure to gain approval for a new drug or product can have a substantial negative effect on a company and its stock. The goods and services of health care issuers are also subject to risks of malpractice claims, product liability claims or other litigation, which may be especially costly and slow with foreign health care issuers. Special problems may arise in attempting to enforce claims against foreign governments.

Health care facility operators face risks related to demand for services, the ability of the facility to provide required services, an increased emphasis on outpatient services, confidence in the facility, management capabilities, competitive forces that may result in price discounting, efforts by insurers and government agencies to limit rates, expenses, the cost and possible unavailability of malpractice insurance, and termination or restriction of government financial assistance (such as Medicare, Medicaid or similar programs).

Investing in foreign health care companies poses additional risks due to political, social and economic developments or instability abroad; global health pandemics; the threat of terrorist attacks; the differences between regulations in the U.S. and regulations abroad; the seizure by the government of company assets; excessive taxation; withholding taxes on dividends and interest; different accounting standards; and limitations on the use or transfer of portfolio assets. Compliance with the Foreign Corrupt

Practices Act is also of concern, particularly in developing countries where there tends to be a higher risk of corruption in the life sciences sector. Further, some foreign issuers may not be subject to the reporting requirements of the Securities Exchange Act of 1934, and less information about them may be publicly available than is available for a domestic issuer. Stock markets may also be open on different days or at different times in foreign markets and be more volatile abroad than in the U.S. Foreign investments may operate in a currency other than the U.S. dollar. Certain currencies may be especially unstable and foreign governments may intervene in the market. Such fluctuations in currency exchange rates relative to the U.S. dollar may affect the value of a company and its stock.

Many European countries are member states in the European Union, and the authority to direct monetary policies, such as money supply or interest rates for the Euro, belongs to the European Central Bank, rather than the individual member states. Additionally, the debt crisis in Europe and the related austerity measures in certain countries have also had a significant negative impact on the economies of certain European countries and may continue to affect their future economic outlooks.

In the United Kingdom, Parliament in 2012 enacted the Health and Social Care Act (“Act”), which reorganized the health care system. Significant provisions of the Act include the creation of new health boards to oversee services and allocate resources, among other things. The Act continues to have an impact as it effectuates further reform within the United Kingdom. For example, in England in 2013, primary care trusts were eliminated and replaced by Clinical Commission Groups, which are statutory bodies responsible for planning and commissioning local health care services.

Elsewhere in Europe, country-specific regulations and reforms also continue to have a significant impact on the health care sector. In France, a regulation that introduced formal medioeconomic assessments into the approval and pricing decisions of drugs impacted biopharma companies. In Germany, a new “treatment contract” was instituted to govern patient-provider relationships. The

Sponsor is unable to predict the full impact of these reforms on the Securities in your Portfolio.

Industrials Issuers. The European Dividend Sustainability Portfolio invests significantly in industrials companies. General risks of industrials companies include the general state of the economy, intense competition, imposition of import controls, volatility in commodity prices, currency exchange rate fluctuation, consolidation, labor relations, domestic and international politics, excess capacity and consumer spending trends. Companies in the industrials sector may be adversely affected by liability for environmental damage and product liability claims. Capital goods companies may also be significantly affected by overall capital spending and leverage levels, economic cycles, technical obsolescence, delays in modernization, limitations on supply of key materials, depletion of resources, government regulations, government contracts and e-commerce initiatives.

Industrials companies may also be affected by factors more specific to their individual industries. Industrial machinery manufacturers may be subject to declines in commercial and consumer demand and the need for modernization. Aerospace and defense companies may be influenced by decreased demand for new equipment, aircraft order cancellations, disputes over or ability to obtain or retain government contracts, changes in government budget priorities, changes in aircraft-leasing contracts and cutbacks in profitable business travel. The number of housing starts, levels of public and nonresidential construction including weakening demand for new office and retail space, and overall construction spending may adversely affect construction materials and equipment manufacturers. Stocks of transportation companies are cyclical and can be significantly affected by economic changes, fuel prices and insurance costs. Transportation companies in certain countries may also be subject to significant government regulation and oversight, which may negatively impact their businesses.

Information Technology Issuers. The International Dividend Sustainability Portfolio invests significantly in the information technology sector. These companies include companies that are involved in computer and business services, enterprise software/technical

software, Internet and computer software, Internet-related services, networking and telecommunications equipment, telecommunications services, electronics products, server hardware, computer hardware and peripherals, semiconductor capital equipment and semiconductors. These companies face risks related to rapidly changing technology, rapid product obsolescence, cyclical market patterns, evolving industry standards and frequent new product introductions.

Companies in this sector face risks from rapid changes in technology, competition, dependence on certain suppliers and supplies, rapid obsolescence of products or services, patent termination, frequent new products and government regulation. These companies can also be adversely affected by interruption or reduction in supply of components or loss of key customers and failure to comply with certain industry standards.

An unexpected change in technology can have a significant negative impact on a company. The failure of a company to introduce new products or technologies or keep pace with rapidly changing technology can have a negative impact on the company's results. Information technology companies may also be smaller and/or less experienced companies with limited product lines, markets or resources. Stocks of some Internet companies have high price-to-earnings ratios with little or no earnings histories. Information technology stocks tend to experience substantial price volatility and speculative trading. Announcements about new products, technologies, operating results or marketing alliances can cause stock prices to fluctuate dramatically. At times, however, extreme price and volume fluctuations are unrelated to the operating performance of a company. This can impact your ability to redeem your Units at a price equal to or greater than what you paid.

Legislation/Litigation. From time to time, various legislative initiatives are proposed in the United States and abroad which may have a negative impact on certain of the companies represented in your Portfolio, or on the tax treatment of your Portfolio or of your investment in a Portfolio. In addition, litigation regarding

any of the issuers of the Securities or of the industries represented by these issuers may negatively impact the share prices of these Securities. No one can predict what impact any pending or threatened litigation will have on the share prices of the Securities.

Liquidity Risk. Liquidity risk is the risk that the value of a security will fall if trading in the security is limited or absent. The market for certain investments may become less liquid or illiquid due to adverse changes in the conditions of a particular issuer or due to adverse market or economic conditions. In the absence of a liquid trading market for a particular security, the price at which such security may be sold to meet redemptions, as well as the value of the Units of your Portfolio, may be adversely affected. No one can guarantee that a liquid trading market will exist for any security.

No FDIC Guarantee. An investment in your Portfolio is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

PUBLIC OFFERING

General. Units are offered at the Public Offering Price which consists of the net asset value per Unit plus organization costs plus the sales charge. The net asset value per Unit is the value of the securities, cash and other assets in your Portfolio reduced by the liabilities of the Portfolio divided by the total Units outstanding. The maximum sales charge equals 2.75% of the Public Offering Price per Unit (2.828% of the aggregate offering price of the Securities) at the time of purchase.

The initial sales charge is the difference between the total sales charge amount (maximum of 2.75% of the Public Offering Price per Unit) and the sum of the remaining fixed dollar deferred sales charge and the fixed dollar creation and development fee (initially \$0.275 per Unit). Depending on the Public Offering Price per Unit, you pay the initial sales charge at the time you buy Units. The deferred sales charge is fixed at \$0.225 per Unit. Your Portfolio pays the deferred sales charge in installments as described in the "Fee Table." If any deferred sales charge payment date is not a business

day, we will charge the payment on the next business day. If you purchase Units after the initial deferred sales charge payment, you will only pay that portion of the payments not yet collected. If you redeem or sell your Units prior to collection of the total deferred sales charge, you will pay any remaining deferred sales charge upon redemption or sale of your Units. The initial and deferred sales charges are referred to as the “transactional sales charge.” The transactional sales charge does not include the creation and development fee which compensates the Sponsor for creating and developing your Portfolio and is described under “Expenses.” The creation and development fee is fixed at \$0.05 per Unit. Your Portfolio pays the creation and development fee as of the close of the initial offering period as described in the “Fee Table.” If you redeem or sell your Units prior to collection of the creation and development fee, you will not pay the creation and development fee upon redemption or sale of your Units. After the initial offering period the maximum sales charge will be reduced by 0.50%, reflecting the previous collection of the creation and development fee. Because the deferred sales charge and creation and development fee are fixed dollar amounts per Unit, the actual charges will exceed the percentages shown in the “Fee Table” if the Public Offering Price per Unit falls below \$10 and will be less than the percentages shown in the “Fee Table” if the Public Offering Price per Unit exceeds \$10. In no event will the maximum total sales charge exceed 2.75% of the Public Offering Price per Unit.

The “Fee Table” shows the sales charge calculation at a \$10 Public Offering Price per Unit. At a \$10 Public Offering Price, there is no initial sales charge during the initial offering period. If the Public Offering Price exceeds \$10 per Unit, you will pay an initial sales charge equal to the difference between the total sales charge and the sum of the remaining deferred sales charge and the creation and development fee. For example, if the Public Offering Price per Unit rose to \$14, the maximum sales charge would be \$0.385 (2.75% of the Public Offering Price per Unit), consisting of an initial sales charge of \$0.110, a deferred sales charge of \$0.225 and the creation and development fee of \$0.050. Since the deferred sales charge and creation

and development fee are fixed dollar amounts per Unit, your Portfolio must charge these amounts per Unit regardless of any decrease in net asset value. However, if the Public Offering Price per Unit falls to the extent that the maximum sales charge percentage results in a dollar amount that is less than the combined fixed dollar amounts of the deferred sales charge and creation and development fee, your initial sales charge will be a credit equal to the amount by which these fixed dollar charges exceed your sales charge at the time you buy Units. In such a situation, the value of securities per Unit would exceed the Public Offering Price per Unit by the amount of the initial sales charge credit and the value of those securities will fluctuate, which could result in a benefit or detriment to Unitholders that purchase Units at that price. The initial sales charge credit is paid by the Sponsor and is not paid by your Portfolio. If the Public Offering Price per Unit fell to \$6, the maximum sales charge would be \$0.165 (2.75% of the Public Offering Price per Unit), which consists of an initial sales charge (credit) of -\$0.110, a deferred sales charge of \$0.225 and a creation and development fee of \$0.050.

The actual sales charge that may be paid by an investor may differ slightly from the sales charges shown herein due to rounding that occurs in the calculation of the Public Offering Price and in the number of Units purchased.

The minimum purchase is 100 Units (25 Units for retirement accounts) but may vary by selling firm. Certain broker-dealers or selling firms may charge an order handling fee for processing Unit purchases.

Reducing Your Sales Charge. The Sponsor offers ways for you to reduce the sales charge that you pay. It is your financial professional's responsibility to alert the Sponsor of any discount when you purchase Units. Before you purchase Units you must also inform your financial professional of your qualification for any discount to be eligible for a reduced sales charge. Since the deferred sales charges and creation and development fee are fixed dollar amounts per Unit, your Portfolio must charge these amounts per Unit regardless of any discounts. However, if you are eligible to receive a discount such that your total sales charge is less than the fixed dollar amounts of the deferred sales charges and

creation and development fee, you will receive a credit equal to the difference between your total sales charge and these fixed dollar charges at the time you buy Units.

Fee Accounts. Investors may purchase Units through registered investment advisers, certified financial planners and registered broker-dealers who in each case either charge periodic fees for brokerage services, financial planning, investment advisory or asset management services, or provide such services in connection with the establishment of an investment account for which a comprehensive “fee based” charge (“Fee Based”) is imposed (“Fee Accounts”). If Units of a Portfolio are purchased for a Fee Account and the Portfolio is subject to a Fee Based charge (i.e., the Portfolio is “Fee Based Eligible”), then the purchase will not be subject to the transactional sales charge but will be subject to the creation and development fee of \$0.05 per Unit that is retained by the Sponsor. Please refer to the section called “Fee Accounts” for additional information on these purchases. The Sponsor reserves the right to limit or deny purchases of Units described in this paragraph by investors or selling firms whose frequent trading activity is determined to be detrimental to a Portfolio. Fee Based Eligible Units are not eligible for any sales charge discounts in addition to that which is described in this paragraph and under the “Fee Accounts” section found below.

Employees. Employees, officers and directors (including their spouses (or the equivalent if recognized under local law) and children or step-children under 21 living in the same household, parents or step-parents and trustees, custodians or fiduciaries for the benefit of such persons) of Invesco Capital Markets, Inc. and its affiliates, and dealers and their affiliates may purchase Units at the Public Offering Price less the applicable dealer concession. All employee discounts are subject to the policies of the related selling firm. Only employees, officers and directors of companies that allow their employees to participate in this employee discount program are eligible for the discounts.

Distribution Reinvestments. We do not charge any sales charge when you reinvest distributions from your Portfolio into additional Units of your Portfolio. Since the deferred sales charge and creation and development

fee are fixed dollar amounts per unit, your Portfolio must charge these amounts per unit regardless of this discount. If you elect to reinvest distributions, the Sponsor will credit you with additional Units with a dollar value sufficient to cover the amount of any remaining deferred sales charge and creation and development fee that will be collected on such Units at the time of reinvestment. The dollar value of these Units will fluctuate over time.

Unit Price. The Public Offering Price of Units will vary from the amounts stated under “Essential Information” in accordance with fluctuations in the prices of the underlying Securities in the Portfolios. The initial price of the Securities upon deposit by the Sponsor was determined by the Trustee. The Trustee will generally determine the value of the Securities as of the Evaluation Time on each business day and will adjust the Public Offering Price of Units accordingly. The Evaluation Time is the close of the New York Stock Exchange on each business day. The term “business day”, as used herein and under “Rights of Unitholders--Redemption of Units”, means any day on which the New York Stock Exchange is open for regular trading. The Public Offering Price per Unit will be effective for all orders received prior to the Evaluation Time on each business day. Orders received by the Sponsor prior to the Evaluation Time and orders received by authorized financial professionals prior to the Evaluation Time that are properly transmitted to the Sponsor by the time designated by the Sponsor, are priced based on the date of receipt. Orders received by the Sponsor after the Evaluation Time, and orders received by authorized financial professionals after the Evaluation Time or orders received by such persons that are not transmitted to the Sponsor until after the time designated by the Sponsor, are priced based on the date of the next determined Public Offering Price per Unit provided they are received timely by the Sponsor on such date. It is the responsibility of authorized financial professionals to transmit orders received by them to the Sponsor so they will be received in a timely manner.

The value of portfolio securities is based on the securities' market price when available. When a market price is not readily available, including circumstances under which the Trustee determines that a security's market price is not accurate, a portfolio security is valued at its fair value, as determined under procedures established by the Trustee or an independent pricing service used by the Trustee. In these cases, a Portfolio's net asset value will reflect certain portfolio securities' fair value rather than their market price. With respect to securities that are primarily listed on foreign exchanges, the value of the portfolio securities may change on days when you will not be able to purchase or sell Units. The value of any foreign securities is based on the applicable currency exchange rate as of the Evaluation Time. The Sponsor will provide price dissemination and oversight services to the Portfolios.

During the initial offering period, part of the Public Offering Price represents an amount that will pay the costs incurred in establishing your Portfolio. These costs include the costs of preparing documents relating to your Portfolio (such as the registration statement, prospectus, trust agreement and legal documents), federal and state registration fees, the initial fees and expenses of the Trustee and the initial audit. Your Portfolio will sell securities to reimburse us for these costs at the end of the initial offering period or after six months, if earlier. The value of your Units will decline when your Portfolio pays these costs.

Unit Distribution. Units will be distributed to the public by the Sponsor, broker-dealers and others at the Public Offering Price. Units repurchased in the secondary market, if any, may be offered by this prospectus at the secondary market Public Offering Price in the manner described above.

Unit Sales Concessions. Brokers, dealers and others will be allowed a regular concession or agency commission in connection with the distribution of Units during the initial offering period of 2.00% of the Public Offering Price per Unit.

Volume Concession Based Upon Annual Sales. As described below, broker-dealers and other selling agents may in certain cases be eligible for an additional

concession based upon their annual eligible sales of all Invesco fixed income and equity unit investment trusts. Eligible sales include all units of any Invesco unit investment trust underwritten or purchased directly from Invesco during a trust's initial offering period. For purposes of this concession, trusts designated as either "Invesco Unit Trusts, Taxable Income Series" or "Invesco Unit Trusts, Municipal Series" are fixed income trusts, and trusts designated as "Invesco Unit Trusts Series" are equity trusts. In addition to the regular concessions or agency commissions described above in "Unit Sales Concessions" all broker-dealers and other selling firms will be eligible to receive additional compensation based on total initial offering period sales of all eligible Invesco unit investment trusts during the previous consecutive 12-month period through the end of the most recent month. The Volume Concession, as applicable to equity and fixed income trust units, is set forth in the following table:

Total Sales (in millions)	Volume Concession	
	Equity Trust Units	Fixed Income Trust Units
\$25 but less than \$100	0.035%	0.035%
\$100 but less than \$150	0.050	0.050
\$150 but less than \$250	0.075	0.075
\$250 but less than \$1,000	0.100	0.100
\$1,000 but less than \$5,000	0.125	0.100
\$5,000 but less than \$7,500	0.150	0.100
\$7,500 or more	0.175	0.100

Broker-dealers and other selling firms will not receive the Volume Concession on the sale of units purchased in Fee Accounts, however, such sales will be included in determining whether a firm has met the sales level breakpoints set forth in the Volume Concession table above. Secondary market sales of all unit investment trusts are excluded for purposes of the Volume Concession. Eligible dealer firms and other selling agents include clearing firms that place orders with Invesco and provide Invesco with information with respect to the representatives who initiated such transactions. Eligible dealer firms and other selling agents will not include firms that solely provide clearing services to other broker-dealer firms or firms who place

orders through clearing firms that are eligible dealers. We reserve the right to change the amount of the concessions or agency commissions from time to time. For a trust to be eligible for this additional compensation, the trust's prospectus must include disclosure related to this additional compensation.

Additional Information. Except as provided in this section, any sales charge discount provided to investors will be borne by the selling broker-dealer or agent. For all secondary market transactions the total concession or agency commission will amount to 80% of the applicable sales charge. Notwithstanding anything to the contrary herein, in no case shall the total of any concessions, agency commissions and any additional compensation allowed or paid to any broker, dealer or other distributor of Units with respect to any individual transaction exceed the total sales charge applicable to such transaction. The Sponsor reserves the right to reject, in whole or in part, any order for the purchase of Units and to change the amount of the concession or agency commission to dealers and others from time to time.

We may provide, at our own expense and out of our own profits, additional compensation and benefits to broker-dealers who sell Units of the Portfolios and our other products. This compensation is intended to result in additional sales of our products and/or compensate broker-dealers and financial advisors for past sales. We may make these payments for marketing, promotional or related expenses, including, but not limited to, expenses of entertaining retail customers and financial advisors, advertising, sponsorship of events or seminars, obtaining shelf space in broker-dealer firms and similar activities designed to promote the sale of the Portfolios and our other products. Fees may include payment for travel expenses, including lodging, incurred in connection with trips taken by invited registered representatives for meetings or seminars of a business nature. These arrangements will not change the price you pay for your Units.

Sponsor Compensation. The Sponsor will receive the total sales charge applicable to each transaction. Except as provided under "Unit Distribution," any sales charge discount provided to investors will be borne by

the selling dealer or agent. In addition, the Sponsor will realize a profit or loss as a result of the difference between the price paid for the Securities by the Sponsor and the cost of the Securities to your Portfolio on the Initial Date of Deposit as well as on subsequent deposits. See "Notes to Portfolios". The Sponsor has not participated as sole underwriter or as manager or as a member of the underwriting syndicates or as an agent in a private placement for any of the Securities. The Sponsor may realize profit or loss as a result of the possible fluctuations in the market value of Units held by the Sponsor for sale to the public. In maintaining a secondary market, the Sponsor will realize profits or losses in the amount of any difference between the price at which Units are purchased and the price at which Units are resold (which price includes the applicable sales charge) or from a redemption of repurchased Units at a price above or below the purchase price. Cash, if any, made available to the Sponsor prior to the date of settlement for the purchase of Units may be used in the Sponsor's business and may be deemed to be a benefit to the Sponsor, subject to the limitations of the Securities Exchange Act of 1934, as amended ("1934 Act").

The Sponsor or an affiliate may have participated in a public offering of one or more of the Securities. The Sponsor, an affiliate or their employees may have a long or short position in these Securities or related securities. An affiliate may act as a specialist or market maker for these Securities. An officer, director or employee of the Sponsor or an affiliate may be an officer or director for issuers of the Securities.

Market for Units. Although it is not obligated to do so, the Sponsor may maintain a market for Units and to purchase Units at the secondary market repurchase price (which is described under "Right of Unitholders--Redemption of Units"). The Sponsor may discontinue purchases of Units or discontinue purchases at this price at any time. In the event that a secondary market is not maintained, a Unitholder will be able to dispose of Units by tendering them to the Trustee for redemption at the Redemption Price. See "Rights of Unitholders--Redemption of Units". Unitholders should contact their broker to determine the best price for Units in the

secondary market. Units sold prior to the time the entire deferred sales charge has been collected will be assessed the amount of any remaining deferred sales charge at the time of sale. The Trustee will notify the Sponsor of any Units tendered for redemption. If the Sponsor's bid in the secondary market equals or exceeds the Redemption Price per Unit, it may purchase the Units not later than the day on which Units would have been redeemed by the Trustee. The Sponsor may sell repurchased Units at the secondary market Public Offering Price per Unit.

RETIREMENT ACCOUNTS

Units are available for purchase in connection with certain types of tax-sheltered retirement plans, including Individual Retirement Accounts for individuals, Simplified Employee Pension Plans for employees, qualified plans for self-employed individuals, and qualified corporate pension and profit sharing plans for employees. The minimum purchase for these accounts is reduced to 25 Units but may vary by selling firm. The purchase of Units may be limited by the plans' provisions and does not itself establish such plans.

FEE ACCOUNTS

As described above, Units may be available for purchase by investors in Fee Accounts where a Portfolio is Fee Based Eligible. You should consult your financial professional to determine whether you can benefit from these accounts. This table illustrates the sales charge you will pay if a Portfolio is Fee Based Eligible as a percentage of the initial Public Offering Price per Unit on the Initial Date of Deposit (the percentage will vary thereafter).

Initial sales charge	0.00%
Deferred sales charge	<u>0.00</u>
Transactional sales charge	<u>0.00%</u>
Creation and development fee	<u>0.50%</u>
Total sales charge	<u>0.50%</u>

You should consult the "Public Offering--Reducing Your Sales Charge" section for specific information on

this and other sales charge discounts. That section governs the calculation of all sales charge discounts. The Sponsor reserves the right to limit or deny purchases of Units in Fee Accounts by investors or selling firms whose frequent trading activity is determined to be detrimental to a Portfolio. To purchase Units in these Fee Accounts, your financial professional must purchase Units designated with one of the Fee Based CUSIP numbers set forth under "Essential Information," either Fee Based Cash for cash distributions or Fee Based Reinvest for the reinvestment of distributions in additional Units, if available. See "Rights of Unitholders--Reinvestment Option."

RIGHTS OF UNITHOLDERS

Distributions. Dividends and interest, net of expenses, and any net proceeds from the sale of Securities received by a Portfolio will generally be distributed to Unitholders on each Distribution Date to Unitholders of record on the preceding Record Date. These dates appear under "Essential Information". Distributions made by the securities in your Portfolio include ordinary income, but may also include sources other than ordinary income such as returns of capital, loan proceeds, short-term capital gains and long-term capital gains (see "Taxation--Distributions"). In addition, the Portfolios will generally make required distributions at the end of each year because each is structured as a "regulated investment company" for federal tax purposes. Unitholders will also receive a final distribution of income when their Portfolio terminates. A person becomes a Unitholder of record on the date of settlement (generally two business days after Units are ordered, or any shorter period as may be required by the applicable rules under the 1934 Act). Unitholders may elect to receive distributions in cash or to have distributions reinvested into additional Units. See "Rights of Unitholders--Reinvestment Option".

Dividends and interest received by a Portfolio are credited to the Income Account of the Portfolio. Other receipts (e.g., capital gains, proceeds from the sale of Securities, etc.) are credited to the Capital Account. Proceeds received on the sale of any Securities, to the extent not used to meet redemptions of Units or pay

deferred sales charges, fees or expenses, will be distributed to Unitholders. Proceeds received from the disposition of any Securities after a Record Date and prior to the following Distribution Date will be held in the Capital Account and not distributed until the next Distribution Date. Any distribution to Unitholders consists of each Unitholder's pro rata share of the available cash in the Income and Capital Accounts as of the related Record Date.

Historical and Estimated Distributions. The Historical 12 Month Distributions per Unit, and Estimated Initial Distribution per Unit (if any), may be shown under "Essential Information." These figures are based upon the weighted average of the actual distributions paid by the securities included in your Portfolio over the 12 months preceding the Initial Date of Deposit and are reduced to account for the effects of fees and expenses which will be incurred when investing in your Portfolio. While both figures are calculated using a Public Offering Price of \$10 per Unit, any presented Estimated Initial Distribution per Unit will reflect an estimate of the per Unit distributions you may receive on the first Distribution Date based upon each issuer's preceding 12 month distributions. Dividend payments are not assured and therefore the amount of future dividend income to your Portfolio is uncertain. The actual net annual distributions may decrease over time because a portion of the securities included in your Portfolio will be sold to pay for the organization costs, deferred sales charge and creation and development fee. Securities may also be sold to pay regular fees and expenses during your Portfolio's life. The actual net annual income distributions you receive will vary from the Historical 12 Month Distributions amount due to changes in dividends and distribution amounts paid by issuers, currency fluctuations, the sale of securities to pay any deferred sales charge, Portfolio fees and expenses, and with changes in your Portfolio such as the acquisition, call, maturity or sale of securities. Due to these and various other factors, actual income received by your Portfolio will most likely differ from the most recent dividends or scheduled income payments.

Reinvestment Option. Unitholders may have distributions automatically reinvested in additional Units

without a sales charge (to the extent Units may be lawfully offered for sale in the state in which the Unitholder resides). The CUSIP numbers for either "Cash" distributions or "Reinvest" for the reinvestment of distributions are set forth under "Essential Information". Brokers and dealers can use the Dividend Reinvestment Service through Depository Trust Company ("DTC") or purchase a Reinvest (or Fee Based Reinvest in the case of Fee Based Eligible Units held in Fee Accounts) CUSIP, if available. To participate in this reinvestment option, a Unitholder must file with the Trustee a written notice of election, together with any other documentation that the Trustee may then require, at least five days prior to the related Record Date. A Unitholder's election will apply to all Units owned by the Unitholder and will remain in effect until changed by the Unitholder. The reinvestment option is not offered during the 30 calendar days prior to termination. If Units are unavailable for reinvestment or this reinvestment option is no longer available, distributions will be paid in cash. Distributions will be taxable to Unitholders if paid in cash or automatically reinvested in additional Units. See "Taxation".

A participant may elect to terminate his or her reinvestment plan and receive future distributions in cash by notifying the Trustee in writing no later than five days before a Distribution Date. The Sponsor shall have the right to suspend or terminate the reinvestment plan at any time. The reinvestment plan is subject to availability or limitation by each broker-dealer or selling firm. Broker-dealers may suspend or terminate the offering of a reinvestment plan at any time. Please contact your financial professional for additional information.

Redemption of Units. All or a portion of your Units may be tendered to The Bank of New York Mellon, the Trustee, for redemption at Unit Investment Trust Division, 111 Sanders Creek Parkway, East Syracuse, New York 13057, on any day the New York Stock Exchange is open. No redemption fee will be charged by the Sponsor or the Trustee, but you are responsible for applicable governmental charges, if any. Units redeemed by the Trustee will be canceled. You may redeem all or a portion of your Units by sending a

request for redemption to your bank or broker-dealer through which you hold your Units. No later than two business days (or any shorter period as may be required by the applicable rules under the 1934 Act) following satisfactory tender, the Unitholder will be entitled to receive in cash an amount for each Unit equal to the Redemption Price per Unit next computed on the date of tender. The “date of tender” is deemed to be the date on which Units are received by the Trustee, except that with respect to Units received by the Trustee after the Evaluation Time or on a day which is not a business day, the date of tender is deemed to be the next business day. Redemption requests received by the Trustee after the Evaluation Time, and redemption requests received by authorized financial professionals after the Evaluation Time or redemption requests received by such persons that are not transmitted to the Trustee until after the time designated by the Trustee, are priced based on the date of the next determined redemption price provided they are received timely by the Trustee on such date. It is the responsibility of authorized financial professionals to transmit redemption requests received by them to the Trustee so they will be received in a timely manner. Certain broker-dealers or selling firms may charge an order handling fee for processing redemption requests. Units redeemed directly through the Trustee are not subject to such fees.

Unitholders tendering 1,000 or more Units of the Dividend Sustainability Portfolio or International Dividend Sustainability Portfolio (or such higher amount as may be required by your broker-dealer or selling agent) for redemption may request an in kind distribution of Securities equal to the Redemption Price per Unit on the date of tender. The European Dividend Sustainability Portfolio and Global Dividend Sustainability Portfolio will generally not offer in kind distributions. Unitholders may not request an in kind distribution during the initial offering period or within 30 calendar days of a Portfolio’s termination. Your Portfolio generally will not offer in kind distributions of portfolio securities that are held in foreign markets. An in kind distribution will be made by the Trustee through the distribution of each of the Securities in book-entry form

to the account of the Unitholder’s broker-dealer at DTC. Amounts representing fractional shares will be distributed in cash. The Trustee may adjust the number of shares of any Security included in a Unitholder’s in kind distribution to facilitate the distribution of whole shares. The in kind distribution option may be modified or discontinued at any time without notice. Notwithstanding the foregoing, if the Unitholder requesting an in kind distribution is the Sponsor or an affiliated person of a Portfolio, the Trustee may make an in kind distribution to such Unitholder provided that no one with a pecuniary incentive to influence the in kind distribution may influence selection of the distributed securities, the distribution must consist of a pro rata distribution of all portfolio securities (with limited exceptions) and the in kind distribution may not favor such affiliated person to the detriment of any other Unitholder. Unitholders will incur transaction costs in liquidating securities received in an in-kind distribution, and any such securities received will be subject to market risk until sold. In the event that any securities received in-kind are illiquid, Unitholders will bear the risk of not being able to sell such securities in the near term, or at all.

The Trustee may sell Securities to satisfy Unit redemptions. To the extent that Securities are redeemed in kind or sold, the size of a Portfolio will be, and the diversity of a Portfolio may be, reduced. Sales may be required at a time when Securities would not otherwise be sold and may result in lower prices than might otherwise be realized. The price received upon redemption may be more or less than the amount paid by the Unitholder depending on the value of the Securities at the time of redemption. Special federal income tax consequences will result if a Unitholder requests an in kind distribution. See “Taxation”.

The Redemption Price per Unit and the secondary market repurchase price per Unit are equal to the pro rata share of each Unit in your Portfolio determined on the basis of (i) the cash on hand in the Portfolio, (ii) the value of the Securities in the Portfolio and (iii) dividends or other income distributions receivable on the Securities in the Portfolio trading ex-dividend as of the date of computation, less (a) amounts representing

taxes or other governmental charges payable out of the Portfolio, (b) the accrued expenses of the Portfolio (including costs associated with liquidating securities after the end of the initial offering period) and (c) any unpaid deferred sales charge payments. During the initial offering period, the redemption price and the secondary market repurchase price are not reduced by the estimated organization costs or the creation and development fee. For these purposes, the Trustee will determine the value of the Securities as described under “Public Offering--Unit Price”.

The right of redemption may be suspended and payment postponed for any period during which the New York Stock Exchange is closed, other than for customary weekend and holiday closings, or any period during which the SEC determines that trading on that Exchange is restricted or an emergency exists, as a result of which disposal or evaluation of the Securities is not reasonably practicable, or for other periods as the SEC may permit.

Exchange Option. When you redeem Units of your Portfolio or when your Portfolio terminates (see “Rollover” below), you may be able to exchange your Units for units of other Invesco unit trusts. You should contact your financial professional for more information about trusts currently available for exchanges. Before you exchange Units, you should read the prospectus of the new trust carefully and understand the risks and fees. You should then discuss this option with your financial professional to determine whether your investment goals have changed, whether current trusts suit you and to discuss tax consequences. A rollover or exchange is a taxable event to you. We may discontinue this option at any time.

Rollover. We may offer a subsequent series of each Portfolio for a Rollover when the Portfolios terminate.

On the Mandatory Termination Date you will have the option to (1) participate in a Rollover and have your Units reinvested into a subsequent trust series or (2) receive a cash distribution.

If you elect to participate in a cash Rollover, your Units will be redeemed on the Mandatory Termination Date. As the redemption proceeds become available,

the proceeds (including dividends) will be invested in a new trust series at the public offering price for the new trust. The Trustee will attempt to sell Securities to satisfy the redemption as quickly as practicable on the Mandatory Termination Date. We do not anticipate that the sale period will be longer than one day, however, certain factors could affect the ability to sell the Securities and could impact the length of the sale period. The liquidity of any Security depends on the daily trading volume of the Security and the amount available for redemption and reinvestment on any day.

We may make subsequent trust series available for sale at various times during the year. Of course, we cannot guarantee that a subsequent trust or sufficient units will be available or that any subsequent trusts will offer the same investment strategies or objectives as the current Portfolios. We cannot guarantee that a Rollover will avoid any negative market price consequences resulting from trading large volumes of securities. Market price trends may make it advantageous to sell or buy securities more quickly or more slowly than permitted by the Portfolio procedures. We may, in our sole discretion, modify a Rollover or stop creating units of a trust at any time regardless of whether all proceeds of Unitholders have been reinvested in a Rollover. If we decide not to offer a subsequent series, Unitholders will be notified prior to the Mandatory Termination Date. Cash which has not been reinvested in a Rollover will be distributed to Unitholders shortly after the Mandatory Termination Date. Rollover participants may receive taxable dividends or realize taxable capital gains which are reinvested in connection with a Rollover but may not be entitled to a deduction for capital losses due to the “wash sale” tax rules. Due to the reinvestment in a subsequent trust, no cash will be distributed to pay any taxes. See “Taxation”.

Units. Ownership of Units is evidenced in book-entry form only and will not be evidenced by certificates. Units purchased or held through your bank or broker-dealer will be recorded in book-entry form and credited to the account of your bank or broker-dealer at DTC. Units are transferable by contacting your bank or broker-dealer through which

you hold your Units. Transfer, and the requirements therefore, will be governed by the applicable procedures of DTC and your agreement with the DTC participant in whose name your Units are registered on the transfer records of DTC.

Reports Provided. Unitholders will receive a statement of dividends and other amounts received by a Portfolio for each distribution. Within a reasonable time after the end of each year, each person who was a Unitholder during that year will receive a statement describing dividends and capital received, actual Portfolio distributions, Portfolio expenses, a list of the Securities and other Portfolio information. Unitholders may obtain evaluations of the Securities upon request to the Trustee. If you have questions regarding your account or your Portfolio, please contact your financial advisor or the Trustee. The Sponsor does not have access to individual account information.

PORTFOLIO ADMINISTRATION

Portfolio Administration. Your Portfolio is not a managed fund and, except as provided in the Trust Agreement, Securities generally will not be sold or replaced. The Sponsor may, however, direct that Securities be sold in certain limited circumstances to protect your Portfolio based on advice from the Supervisor. These situations may include events such as the issuer having defaulted on payment of any of its outstanding obligations or the price of a Security has declined to such an extent or other credit factors exist so that in the opinion of the Supervisor retention of the Security would be detrimental to your Portfolio. If a public tender offer has been made for a Security or a merger or acquisition has been announced affecting a Security, the Trustee may either sell the Security or accept an offer if the Supervisor determines that the sale or exchange is in the best interest of Unitholders. The Trustee will distribute any cash proceeds to Unitholders. In addition, the Trustee may sell Securities to redeem Units or pay Portfolio expenses or deferred sales charges. If securities or property are acquired by a Portfolio, the Sponsor may direct the Trustee to sell the securities or property and distribute the proceeds to Unitholders or to accept the securities or property for

deposit in your Portfolio. Should any contract for the purchase of any of the Securities fail, the Sponsor will (unless substantially all of the moneys held in a Portfolio to cover the purchase are reinvested in substitute Securities in accordance with the Trust Agreement) refund the cash and sales charge attributable to the failed contract to all Unitholders on or before the next Distribution Date.

The Sponsor may direct the reinvestment of proceeds of the sale of Securities if the sale is the direct result of serious adverse credit factors which, in the opinion of the Sponsor, would make retention of the Securities detrimental to your Portfolio. In such a case, the Sponsor may, but is not obligated to, direct the reinvestment of sale proceeds in any other securities that meet the criteria for inclusion in your Portfolio on the Initial Date of Deposit. The Sponsor may also instruct the Trustee to take action necessary to ensure that your Portfolio continues to satisfy the qualifications of a regulated investment company and to avoid imposition of tax on undistributed income of the Portfolio.

When your Portfolio sells Securities, the composition and diversity of the Securities in the Portfolio may be altered. In order to obtain the best price for a Portfolio, it may be necessary for the Supervisor to specify minimum amounts (generally 100 shares) in which blocks of Securities are to be sold. In effecting purchases and sales of Portfolio securities, the Sponsor may direct that orders be placed with and brokerage commissions be paid to brokers, including brokers which may be affiliated with your Portfolio, the Sponsor or dealers participating in the offering of Units.

Pursuant to an exemptive order, your Portfolio may be permitted to sell Securities to a new trust when it terminates if those Securities are included in the new trust. The exemption may enable your Portfolio to eliminate commission costs on these transactions. The price for those securities will be the closing sale price on the sale date on the exchange where the Securities are principally traded, as certified by the Sponsor.

Amendment of the Trust Agreement. The Trustee and the Sponsor may amend the Trust Agreement without the consent of Unitholders to

correct any provision which may be defective or to make other provisions that will not materially adversely affect Unitholders (as determined in good faith by the Sponsor and the Trustee). The Trust Agreement may not be amended to increase the number of Units or permit acquisition of securities in addition to or substitution for the Securities (except as provided in the Trust Agreement). The Trustee will notify Unitholders of any amendment.

Termination. Your Portfolio will terminate on the Mandatory Termination Date specified under “Essential Information” or upon the sale or other disposition of the last Security held in the Portfolio. A Portfolio may be terminated at any time with consent of Unitholders representing two-thirds of the outstanding Units or by the Trustee when the value of the Portfolio is less than \$500,000 (\$3,000,000 if the value of the Portfolio has exceeded \$15,000,000) (the “Minimum Termination Value”). A Portfolio will be liquidated by the Trustee in the event that a sufficient number of Units of the Portfolio not yet sold are tendered for redemption by the Sponsor, so that the net worth of the Portfolio would be reduced to less than 40% of the value of the Securities at the time they were deposited in the Portfolio. If your Portfolio is liquidated because of the redemption of unsold Units by the Sponsor, the Sponsor will refund to each purchaser of Units the entire sales charge paid by such purchaser. The Trustee may begin to sell Securities in connection with a Portfolio termination nine business days before, and no later than, the Mandatory Termination Date. Qualified Unitholders may elect an in kind distribution of Securities, provided that Unitholders may not request an in kind distribution of Securities within 30 calendar days of a Portfolio’s termination. Any in kind distribution of Securities will be made in the manner and subject to the restrictions described under “Rights of Unitholders-Redemption of Units”, provided that, in connection with an in kind distribution election more than 30 calendar days prior to termination, Unitholders tendering 1,000 or more Units of a Portfolio (or such higher amount as may be required by your broker-dealer or selling agent) may request an in kind distribution of Securities equal to the Redemption Price

per Unit on the date of tender. Unitholders will receive a final cash distribution within a reasonable time after the Mandatory Termination Date. All distributions will be net of Portfolio expenses and costs. Unitholders will receive a final distribution statement following termination. The Information Supplement contains further information regarding termination of your Portfolio. See “Additional Information”.

Limitations on Liabilities. The Sponsor, Supervisor and Trustee are under no liability for taking any action or for refraining from taking any action in good faith pursuant to the Trust Agreement, or for errors in judgment, but shall be liable only for their own willful misfeasance, bad faith or gross negligence (negligence in the case of the Trustee) in the performance of their duties or by reason of their reckless disregard of their obligations and duties hereunder. The Trustee is not liable for depreciation or loss incurred by reason of the sale by the Trustee of any of the Securities. In the event of the failure of the Sponsor to act under the Trust Agreement, the Trustee may act thereunder and is not liable for any action taken by it in good faith under the Trust Agreement. The Trustee is not liable for any taxes or other governmental charges imposed on the Securities, on it as Trustee under the Trust Agreement or on a Portfolio which the Trustee may be required to pay under any present or future law of the United States of America or of any other taxing authority having jurisdiction. In addition, the Trust Agreement contains other customary provisions limiting the liability of the Trustee. The Sponsor and Supervisor may rely on any evaluation furnished by the Trustee and have no responsibility for the accuracy thereof. Determinations by the Trustee shall be made in good faith upon the basis of the best information available to it.

Sponsor. Invesco Capital Markets, Inc. is the Sponsor of your Portfolio. The Sponsor is a wholly owned subsidiary of Invesco Advisers, Inc. (“Invesco Advisers”). Invesco Advisers is an indirect wholly owned subsidiary of Invesco Ltd., a leading independent global investment manager that provides a wide range of investment strategies and vehicles to its retail, institutional and high net worth clients around the globe. The Sponsor’s principal office is located at 11 Greenway Plaza, Houston,

Texas 77046-1173. As of June 30, 2019, the total stockholders' equity of Invesco Capital Markets, Inc. was \$93,716,910.81 (unaudited). The current assets under management and supervision by Invesco Ltd. and its affiliates were valued at approximately \$1,197.8 billion as of June 30, 2019.

The Sponsor and your Portfolio have adopted a code of ethics requiring Invesco Ltd.'s employees who have access to information on Portfolio transactions to report personal securities transactions. The purpose of the code is to avoid potential conflicts of interest and to prevent fraud, deception or misconduct with respect to your Portfolio. The Information Supplement contains additional information about the Sponsor.

If the Sponsor shall fail to perform any of its duties under the Trust Agreement or become incapable of acting or shall become bankrupt or its affairs are taken over by public authorities, then the Trustee may (i) appoint a successor Sponsor at rates of compensation deemed by the Trustee to be reasonable and not exceeding amounts prescribed by the SEC, (ii) terminate the Trust Agreement and liquidate your Portfolio as provided therein or (iii) continue to act as Trustee without terminating the Trust Agreement.

Trustee. The Trustee is The Bank of New York Mellon, a trust company organized under the laws of New York. The Bank of New York Mellon has its principal unit investment trust division offices at 2 Hanson Place, 12th Floor, Brooklyn, New York 11217, (800) 856-8487. If you have questions regarding your account or your Portfolio, please contact the Trustee at its principal unit investment trust division offices or your financial adviser. The Sponsor does not have access to individual account information. The Bank of New York Mellon is subject to supervision and examination by the Superintendent of Banks of the State of New York and the Board of Governors of the Federal Reserve System, and its deposits are insured by the Federal Deposit Insurance Corporation to the extent permitted by law. Additional information regarding the Trustee is set forth in the Information Supplement, including the Trustee's qualifications and duties, its ability to resign, the effect of a merger involving the Trustee and the Sponsor's

ability to remove and replace the Trustee. See "Additional Information".

TAXATION

This section summarizes some of the principal U.S. federal income tax consequences of owning Units of the Portfolios. Tax laws and interpretations are subject to change, possibly with retroactive effect. Substantial changes to the federal tax law were passed and signed into law in December 2017, many of which became effective in 2018 and may affect your investment in a Portfolio in a number of ways, including possible unintended consequences. This summary does not describe all of the tax consequences to all taxpayers. For example, this summary generally does not describe your situation if you are a corporation, a non-U.S. person, a broker/dealer, a tax-exempt entity, financial institution, person who marks to market their Units or other investor with special circumstances. In addition, this section does not describe your alternative minimum, state, local or foreign tax consequences of investing in a Portfolio.

This federal income tax summary is based in part on the advice of counsel to the Sponsor. The Internal Revenue Service could disagree with any conclusions set forth in this section. In addition, our counsel was not asked to review the federal income tax treatment of the assets to be deposited in your Portfolio.

Additional information related to taxes is contained in the Information Supplement. As with any investment, you should seek advice based on your individual circumstances from your own tax advisor.

Portfolio Status. Your Portfolio intends to elect and to qualify annually as a "regulated investment company" ("RIC") under the federal tax laws. If your Portfolio qualifies under the tax law as a RIC and distributes its income in the manner and amounts required by the RIC tax requirements, the Portfolio generally will not pay federal income taxes. But there is no assurance that the distributions made by your Portfolio will eliminate all taxes for every year at the level of your Portfolio.

Distributions. Portfolio distributions are generally taxable to you. After the end of each year, you will

receive a tax statement reporting your Portfolio's distributions, including the amounts of ordinary income distributions and capital gains dividends. Your Portfolio may make taxable distributions to you even in periods during which the value of your Units has declined. Ordinary income distributions are generally taxed at your federal tax rate for ordinary income, however, as further discussed below, certain ordinary income distributions received from your Portfolio may be taxed, under current federal law, at the capital gains tax rates. Certain ordinary income dividends on Units that are attributable to qualifying dividends received by your Portfolio from certain corporations may be reported by the Portfolio as being eligible for the dividends received deduction for corporate Unitholders provided certain holding period requirements are met. Income from the Portfolio and gains on the sale of your Units may also be subject to a 3.8% federal tax imposed on net investment income if your adjusted gross income exceeds certain threshold amounts, which currently are \$250,000 in the case of married couples filing joint returns and \$200,000 in the case of single individuals. In addition, your Portfolio may make distributions that represent a return of capital for tax purposes to the extent of the Unitholder's basis in the Units, and any additional amounts in excess of basis would be taxed as a capital gain. Generally, you will treat all capital gains dividends as long-term capital gains regardless of how long you have owned your Units. The tax status of your distributions from your Portfolio is not affected by whether you reinvest your distributions in additional Units or receive them in cash. The income from your Portfolio that you must take into account for federal income tax purposes is not reduced by amounts used to pay a deferred sales charge, if any. The tax laws may require you to treat certain distributions made to you in January as if you had received them on December 31 of the previous year.

A distribution paid by your Portfolio reduces the Portfolio's net asset value per Unit on the date paid by the amount of the distribution. Accordingly, a distribution paid shortly after a purchase of Units by a Unitholder would represent, in substance, a partial return of capital, however, it would be subject to income taxes.

Sale or Redemption of Units. If you sell or redeem your Units, you will generally recognize a taxable gain or loss. To determine the amount of this gain or loss, you must subtract your adjusted tax basis in your Units from the amount you receive for the sale of the Units. Your initial tax basis in your Units is generally equal to the cost of your Units, generally including sales charges. In some cases, however, you may have to adjust your tax basis after you purchase your Units.

Capital Gains and Losses and Certain Ordinary Income Dividends. Net capital gain equals net long-term capital gain minus net short-term capital loss for the taxable year. Capital gain or loss is long-term if the holding period for the asset is more than one year and is short-term if the holding period for the asset is one year or less. You must exclude the date you purchase your Units to determine your holding period. However, if you receive a capital gain dividend from your Portfolio and sell your Units at a loss after holding it for six months or less, the loss will be recharacterized as long-term capital loss to the extent of the capital gain dividend received. The tax rates for capital gains realized from assets held for one year or less are generally the same as for ordinary income.

In certain circumstances, ordinary income dividends received by an individual Unitholder from a regulated investment company such as your Portfolio may be taxed at the same rates that apply to net capital gain (as discussed above), provided certain holding period requirements are satisfied and provided the dividends are attributable to qualified dividend income received by the Portfolio itself. Each Portfolio will provide notice to its Unitholders of the amount of any distribution which may be taken into account as qualified dividend income which is eligible for the capital gains tax rates. There is no requirement that tax consequences be taken into account in administering your Portfolio.

In Kind Distributions. Under certain circumstances, as described in this prospectus, you may receive an in kind distribution of Portfolio securities when you redeem your Units. In general, this distribution will be treated as a sale for federal income tax purposes and you will recognize gain or loss, based on the value at that time of the securities and the amount of cash received, and

subject to certain limitations on the deductibility of losses under the tax law.

Rollovers and Exchanges. If you elect to have your proceeds from your Portfolio rolled over into a future trust, it would generally be considered a sale for federal income tax purposes and any gain on the sale will be treated as a capital gain, and, in general, any loss will be treated as a capital loss. However, any loss realized on a sale or exchange will be disallowed to the extent that Units disposed of are replaced (including through reinvestment of dividends) within a period of 61 days beginning 30 days before and ending 30 days after disposition of Units or to the extent that the Unitholder, during such period, acquires or enters into an option or contract to acquire, substantially identical stock or securities. In such a case, the basis of the Units acquired will be adjusted to reflect the disallowed loss. The deductibility of capital losses is subject to other limitations in the tax law.

Deductibility of Portfolio Expenses. Expenses incurred and deducted by your Portfolio will generally not be treated as income taxable to you. In some cases, however, you may be required to treat your portion of these Portfolio expenses as income. In these cases you may be able to take a deduction for these expenses. Recent legislation, effective in 2018, has suspended the deductibility of expenses that are characterized as miscellaneous itemized deductions, which include investment expenses.

Foreign Investors. If you are a foreign investor (*i.e.*, an investor other than a U.S. citizen or resident or a U.S. corporation, partnership, estate or trust), generally, subject to applicable tax treaties, distributions to you from your Portfolio will be characterized as dividends for federal income tax purposes (other than dividends that the Portfolio reports as capital gain dividends) and will be subject to U.S. income taxes, including withholding taxes, subject to certain exceptions described below. You may be eligible under certain income tax treaties for a reduction in withholding rates. However, distributions received by a foreign investor from a Portfolio that are properly reported by the trust as capital gain dividends may not be subject to U.S. federal income taxes, including

withholding taxes, provided that your Portfolio makes certain elections and certain other conditions are met.

The Foreign Account Tax Compliance Act (“FATCA”). A 30% withholding tax on your Portfolio's distributions, including capital gains distributions generally applies if paid to a foreign entity unless: (i) if the foreign entity is a “foreign financial institution” as defined under FATCA, the foreign entity undertakes certain due diligence, reporting, withholding, and certification obligations, (ii) if the foreign entity is not a “foreign financial institution,” it identifies certain of its U.S. investors or (iii) the foreign entity is otherwise excepted under FATCA. If required under the rules above and subject to the applicability of any intergovernmental agreements between the United States and the relevant foreign country, withholding under FATCA may apply. Under existing regulations, FATCA withholding on gross proceeds from the sale of Units and capital gain distributions from your Portfolio took effect on January 1, 2019; however, recently proposed U.S. tax regulations, if finalized in their proposed form, would eliminate FATCA withholding on such types of payments. If withholding is required under FATCA on a payment related to your Units, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) on such payment generally will be required to seek a refund or credit from the IRS to obtain the benefit of such exemption or reduction. Your Portfolio will not pay any additional amounts in respect of amounts withheld under FATCA. You should consult your tax advisor regarding the effect of FATCA based on your individual circumstances.

Foreign Tax Credit. If your Portfolio invests in any foreign securities, the tax statement that you receive may include an item showing foreign taxes your Portfolio paid to other countries. In this case, dividends taxed to you will include your share of the taxes your Portfolio paid to other countries. You may be able to deduct or receive a tax credit for your share of these taxes if your Portfolio meets certain requirements for passing through such deductions or credits to you.

Backup Withholding. By law, your Portfolio must withhold as backup withholding a percentage (currently

24%) of your taxable distributions and redemption proceeds if you do not provide your correct social security or taxpayer identification number and certify that you are not subject to backup withholding, or if the IRS instructs your Portfolio to do so.

Investors should consult their advisors concerning the federal, state, local and foreign tax consequences of investing in a Portfolio.

PORTFOLIO OPERATING EXPENSES

General. The fees and expenses of your Portfolio will generally accrue on a daily basis. Portfolio operating fees and expenses are generally paid out of the Income Account to the extent funds are available, and then from the Capital Account. The deferred sales charge, creation and development fee and organization costs are generally paid out of the Capital Account of your Portfolio. It is expected that Securities will be sold to pay these amounts which will result in capital gains or losses to Unitholders. See “Taxation”. These sales will reduce future income distributions. The Sponsor’s, Supervisor’s and Trustee’s fees may be increased without approval of the Unitholders by amounts not exceeding proportionate increases under the category “Services Less Rent of Shelter” in the Consumer Price Index for All Urban Consumers or, if this category is not published, in a comparable category.

Organization Costs. You and the other Unitholders will bear all or a portion of the organization costs and charges incurred in connection with the establishment of your Portfolio. These costs and charges will include the cost of the preparation, printing and execution of the trust agreement, registration statement and other documents relating to your Portfolio, federal and state registration fees and costs, the initial fees and expenses of the Trustee, and legal and auditing expenses. The Public Offering Price of Units includes the estimated amount of these costs. The Trustee will deduct these expenses from your Portfolio’s assets at the end of the initial offering period.

Creation and Development Fee. The Sponsor will receive a fee from your Portfolio for creating and developing the Portfolio, including determining the

Portfolio’s objectives, policies, composition and size, selecting service providers and information services and for providing other similar administrative and ministerial functions. The creation and development fee is a charge of \$0.05 per Unit. The Trustee will deduct this amount from your Portfolio’s assets as of the close of the initial offering period. No portion of this fee is applied to the payment of distribution expenses or as compensation for sales efforts. This fee will not be deducted from proceeds received upon a repurchase, redemption or exchange of Units before the close of the initial public offering period.

Trustee’s Fee. For its services the Trustee will receive the fee from your Portfolio set forth in the “Fee Table” (which includes the estimated amount of miscellaneous Portfolio expenses). The Trustee benefits to the extent there are funds in the Capital and Income Accounts since these Accounts are non-interest bearing to Unitholders and the amounts earned by the Trustee are retained by the Trustee. Part of the Trustee’s compensation for its services to your Portfolio is expected to result from the use of these funds.

Compensation of Sponsor and Supervisor. The Sponsor and the Supervisor, which is an affiliate of the Sponsor, will receive the annual fees for providing bookkeeping and administrative services and portfolio supervisory services set forth in the “Fee Table”. These fees may exceed the actual costs of providing these services to your Portfolio but at no time will the total amount received for these services rendered to all Invesco unit investment trusts in any calendar year exceed the aggregate cost of providing these services in that year.

Miscellaneous Expenses. The following additional charges are or may be incurred by your Portfolio: (a) normal expenses (including the cost of mailing reports to Unitholders) incurred in connection with the operation of the Portfolio, (b) fees of the Trustee for extraordinary services, (c) expenses of the Trustee (including legal and auditing expenses) and of counsel designated by the Sponsor, (d) various governmental charges, (e) expenses and costs of any action taken by the Trustee to protect the Portfolio and the rights and interests of Unitholders, (f) indemnification of the Trustee

for any loss, liability or expenses incurred in the administration of the Portfolio without negligence, bad faith or willful misconduct on its part, (g) foreign custodial and transaction fees (which may include compensation paid to the Trustee or its subsidiaries or affiliates), (h) costs associated with liquidating the securities held in the Portfolio, (i) any offering costs incurred after the end of the initial offering period and (j) expenditures incurred in contacting Unitholders upon termination of the Portfolio. Your Portfolio may pay the expenses of updating its registration statement each year. The Dividend Sustainability Portfolio and the Global Dividend Sustainability Portfolio will each pay a license fee to S&P Opco, LLC for the use of certain trademarks and other property. The European Dividend Sustainability Portfolio and the Global Dividend Sustainability Portfolio will each pay a license fee to Standard & Poor's Financial Services LLC, for the use of certain trademarks and other property.

OTHER MATTERS

Legal Opinions. The legality of the Units offered hereby has been passed upon by Morgan, Lewis & Bockius LLP. Dorsey & Whitney LLP has acted as counsel to the Trustee.

Independent Registered Public Accounting Firm. The statements of condition and the related portfolios included in this prospectus have been audited by Grant Thornton LLP, independent registered public accounting firm, as set forth in their report in this prospectus, and are included herein in reliance upon the authority of said firm as experts in accounting and auditing.

ADDITIONAL INFORMATION

This prospectus does not contain all the information set forth in the registration statements filed by your Portfolio with the SEC under the Securities Act of 1933 and the Investment Company Act of 1940 (file no. 811-2754). The Information Supplement, which has been filed with the SEC and is incorporated herein by reference, includes more detailed information concerning the Securities, investment risks and general information

about your Portfolio. Reports and other information about your Portfolio are available on the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>. Copies of this information may be obtained, after paying a duplication fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the SEC's Public Reference Section, Washington, DC 20549-0102.
